COVID Hospital Protocol Survey

Senator Johnson is soliciting testimony about hospital protocols during the COVID pandemic. Senator Johnson's staff will review all testimony to ensure it is relevant to the survey and will contact you as needed. Your input will be used to inform policy and legislation. Please provide your testimony by September 7, 2026. Please email your testimony to ronjohnson.senate.gov. Please provide your testimony by September 7, 2026.

 **SEPTEMBER 28, 2026**

 Kennedy Room
Russell Senate Office Building
Washington, D.C.

★ **SUBMIT YOUR TESTIMONY BY SEPTEMBER 7** ★

★ ronjohnson.senate.gov ★

Hosted by Senator Ron Johnson

Please consider the contribution to your public service by the appearance and unique testimony of former University of Minnesota **Medical Assistant Mrs. Jummai Nache** and husband Pastor Dr. Philip Nache.

- (1) Throughout 2020, Mrs. Nache worked in a hospital without the slightest disease symptoms . . . of *any* kind . . . let-alone COVID-19.
- (2) At no time during 2020 did her hospital employer require a COVID-19 test for “SARS-CoV-2” (i.e. 2019-nCov).
- (3) After the Emergency Use Authorization (EUA) for Pfizer on 11 December 2020, the University of Minnesota hospitals immediately announced their “vaccine” mandate, which would enforce their coercion of employment dismissal.
- (4) At no time prior to a two-fold injection did hospital administrators or medical staffs disclose *basic* facts to Mrs. Nache, **allowing for her true informed consent** :
 - a. The Pfizer “vaccine” did not comply with the standard art definition, but was a modRNA platform that *“had never been used on humans before.”*
 - b. Under the EUA; hospital administrators, medical staff and Pfizer were **shielded** from “vaccine” malpractice responsibility **by liability immunity**.
- (5) Consistent with (2), at no time did the hospital test Mrs. Nache for “SARS-CoV-2” **prior** to the Pfizer “vaccine” injections . . .

What happened to Mrs. Nache after modRNA injection, as documented in her 1200+ page medical report, staggers the mind . . . we leave those horrific details for the Subject.

Through the grace of Jesus Himself, the Nache's survived the University of Minnesota COVID-19 hospital protocols :

Mrs. Nache offers testimony as both a modRNA severe injury victim, and as a former hospital employee. Pastor Nache offers testimony as husband, and as a real-time power-of-attorney witness during these horrific hospital protocol events.

Confirmed by your staff, the Nache family submitted their Subject proposal on 16 August 2026 :

From: <oam-no-reply@saa.senate.gov>

**COVID Hospital Protocols**

Philip, [Applicant/Constituent's First name'],

Thank you for submitting your flawed Hospital Protocols statement. Senator Johnson's office is reviewing all statements to be presented during the public event on September 28, 2026. Please note that not all statement will be selected. We do, however, sincerely appreciate the time and effort you took to share your experience.

Thank you!
Sen. Ron Johnson's staff

Shown above; the Nache family and friends, at the Nache family naturalization ceremony of 15 August 2025 in Minneapolis Minnesota. **The Naches are now United States Citizens. ***

CONCLUSION

Please expect the testimony of Mrs. Jummai Nache and Pastor Dr. Philip Nache to be of *great* service to your efforts.

Please feel free to use the following contact information at any time :

Mrs. Jummai Nache / Pastor Dr. Philip Nache
Stream of Nations Ministry
2600 West 82nd Street
Bloomington, MN 55431

BRUSSELS/BANGKOK, Dec 16 (Reuters) - Tens of millions of migrants may be denied COVID-19 vaccines from a global programme because some major manufacturers are worried about legal risks from harmful side effects, according to officials and internal documents from Gavi, the charity operating the programme, reviewed by Reuters.
