Subject: Mrs. Jummai Nache and her Family

Reference 1: Keith Ellison Letter of 24 March 2021 to Twitter CEO Jack Dorsey, et al.
**Reference 2: House Committee on Oversight and Accountability – 8 February 2023 :
Sworn Testimony of Former Twitter Executives**
Reference 3: Twitter Witness Examination by Congresswoman Nancy Mace (R-SC)
Reference 4: My letter of 24 February 2023 to the Florida Attorney General

Dear Attorney General Ellison :

In Reference 1, you and eleven mRNA needle promoting colleagues dictated that the First Amendment to the US Constitution be suspended. **Therein you and your attorney general co-conspirators ostensibly praised two of the most repulsive, untrustworthy, potentially treasonous, individuals to ever defile the American social, political and legal scene :**

The purpose of this letter is **to place in the 'public square'** the gruesome fact that you and your attorney general cohorts are connectable to the horrific destruction of the health & well-being of millions, with a focus upon **Minnesota "residents" such as Mrs. Jummai Nache and her family . . .**

According to you, Mrs. Jummai Nache and her family are to be slandered as “anti-vaxxers.” As detailed on many occasions, that “anti-vaxxer” status came *too late* for Jummai (front row, left). In stark contrast, none of her family members were coerced into employment mandated mRNA needles that destroyed their mother’s / wife’s health . . . all continue to enjoy God given health :

The same “too late” status can now be said, based on her own words, regarding the mRNA injection injuries to Congresswoman Nancy Mace (R-SC) :

We begin with a transcript of the Congresswoman Mace examination of the Twitter criminals that you and your Attorney General pals encouraged and coddled in Reference 1 (Pages 3-5 below) :

Twitter Witness Examination by Congresswoman Nancy Mace (R-SC) – 8 February 2023

Thank you Mr. Chairman.

The Twitter files were not just about Hunter Biden's laptop. Twitter files make it apparent **Twitter worked overtime to suppress accurate COVID information.**

Dr. Jay Bhattacharya is a professor of medicine at Stanford (University) who once tweeted an article where he wrote about natural immunity. Thanks to Elon Musk's release of the Twitter files, we learned that some of his (Jay's) tweets were tagged with the label of 'Trends Blacklist.' Apparently the views of a Stanford doctor are 'disinformation' to you people.

I, along with many Americans, have long-term effects from COVID. Not only was I a long-hauler, but I have effects from the vaccine; it was not the first shot, but it was the second shot that I now developed asthma, that has never gone-away since I had the second shot. I have tremors in my left hand, and I have the occasional heart pain that no doctor can explain, and I have had a battery of tests.

I find it extremely alarming Twitter's unfettered censorship spread into medical fields, and affected millions of Americans by suppressing expert opinions from doctors, and censoring those who disagree with the CDC.

I have great regrets about getting the shots because of the health issues that I now have that I do not think are ever going to go-away. And I know that I am not the only American who has those kinds of concerns.

Another example of what Twitter has done to censor folks is from Dr. Martin Kulldorff, a Harvard educated epidemiologist who once tweeted:

"COVID vaccines are important for high risk people and their caretakers. Those with prior natural infection do not need it, nor children."

The Twitter files reveal this tweet was deemed 'false information' because it ran contrary to the CDC. So my first question this morning of Ms. Gadde, may I ask of you, where did you go to medical school?

Ms. Gadde: *I did not go to medical school.*

Rep. Mace: I'm sorry?

Ms. Gadde: *I did not go to medical school.*

Rep. Mace: That's what I thought.

Twitter Witness Examination by Congresswoman Nancy Mace (R-SC) – 8 February 2023 **Con't**

Rep. Mace: Why do you think that you, or anyone else at Twitter, had the medical expertise to censor a doctor's expert opinion?

Ms. Gadde: *Our policies regarding COVID were designed to protect individuals. We were seeing . . .*

Rep. Mace: "You guys censored Harvard educated doctors, Stanford educated doctors; doctors that are educated in the best places in the world, and you silenced those voices!"

My next question is, 'Did the U.S. government,' excuse me, I have another chart I want to show you Ms. Gadde. I have another Tweet from someone with a following of a full eighteen thousand followers. This person put a chart from the CDC on Twitter. It is the CDC's own data, so it is accurate by your standards. And you all labeled this as 'misleading.' You are not a doctor, right Ms. Gadde?

Ms. Gadde: *No I'm not.*

Rep. Mace: What makes you think that you or anyone else of Twitter have the medical expertise to censor actual accurate CDC data?

Ms. Gadde: *I'm not familiar with these particular situations.*

Rep. Mace: Yeah, I am sure you are not, but this is what Twitter did, they labeled this (CDC chart) as 'inaccurate.' It is the government's own data. It is ridiculous that we are even having to have this conversation. It is not just about the laptop, this is about medical advice that expert doctors were trying to give to Americans because social media companies like Twitter were silencing their voices.

I have another question, my last one for you Ms. Gadde. Did the U.S. government ever contact you, or anyone at Twitter, to pressure Twitter to moderate or censor certain tweets; yes or no?

Ms. Gadde: *We have a program . . .*

Rep. Mace: Did the U.S. government ever contact you, or anyone at Twitter, to censor or moderate certain tweets; yes or no?!

Ms. Gadde: *We received legal demands to remove content from the platform from the U.S. government and the governments all around the world. Those are published on a third party website, and anyone can review . . ."*

Twitter Witness Examination by Congresswoman Nancy Mace (R-SC) – 8 February 2023 Conclusion

Rep. Mace: Thank God for Matt Tiabbi, thank God for Elon Musk, for allowing to show us in the world that Twitter was basically a subsidiary of the FBI, censoring real medical voices with real expertise that put real American lives in danger because they did not have that information. I also want to thank one of my colleagues Ro Khanna, because as it turns out censorship is not just an important issue to conservatives. Some of my colleagues on the other side of the aisle, like Ro found this censorship very concerning, and even wrote to you and the folks at Twitter that **he was concerned about the First Amendment being censored**. So I want to thank him for speaking up and speaking out about this issue, because this should not be a partisan issue, this should be an issue that is an American issue.

Mr. Chairman, I would like to enter into the record, ask unanimous consent, to enter into the record a Wall street Journal article from December ninth twenty-twenty-two, by Justin Hart, entitled, 'The Twitter Blacklisting of Jay Bhattacharya' into the record please.

Chairman: Without objection, so ordered.

Rep. Mace: Thank you, and I yield back.

AG Keith Ellison Letter of 24 March 2021 to Twitter CEO Jack Dorsey, et al.

On Page 1 of Reference 1 you stated (screenshot):

As safe and effective vaccines become available, the end of this pandemic is in sight. This end, however, depends on the widespread acceptance of these vaccines as safe and effective. Unfortunately, misinformation disseminated via your platforms has increased vaccine hesitancy, which will slow economic recovery and, more importantly, ultimately cause even more unnecessary deaths. A small group of individuals use your platforms to downplay the dangers of COVID-19 and spread misinformation about the safety of vaccines. These individuals lack medical expertise and are often motivated by financial interests. According to a recent report by the Center for Countering Digital Hate¹, so-called “anti-vaxxer” accounts on Facebook, YouTube, Instagram, and Twitter reach more than 59 million followers. “Anti-vaxxers” are using social media platforms to target people of color and Black Americans specifically, members of communities who have suffered the worst health impacts of the virus and whose vaccination rates are lagging.

Lack medical expertise? Motivated by financial interests?! Your entire letter is anti-Constitutional but most revealing of you, Mr. Ellison. Unlike the other AG signatories, you were already fully aware of the mRNA injuries that had **already** occurred, and had been documented by Pfizer . . . **right there in Minnesota.**

Your office continues to confirm intimacy with the organization that mandated the lucrative US Treasury and NIH/CDC funded mRNA injection that destroyed the previously healthy life of a **Fairview Health Services Medical Assistant, Mrs. Jummai Nache** (Minnesota State Attorney General website of 6 March 2023) :

The screenshot shows the Minnesota Attorney General's Office website. At the top, there are four navigation links: TAKE ACTION, FILE A COMPLAINT, ORDER PUBLICATIONS, and CONTACT US. Below these links is a large blue banner with a white outline of the state of Minnesota and a pair of scales. The banner contains the following text:

Sanford Health and Fairview Health Services Proposed Merger

On Tuesday, November 16, 2022, Sanford Health and Fairview Health Services announced that they intend to merge in 2023. The new entity would be called Sanford Health and run by Sanford's current CEO. The Minnesota Attorney General's Office is seeking community input on the proposed merger.

[More Information](#)

A large red arrow points upwards towards the "More Information" link.

At no time prior to or after the injection of the Pfizer mRNA poison by Fairview, into Mrs. Nache and Minnesota residents, did you seek “**community input.**” And you never will.

Instead of “community input” you used your office to promote lucrative mRNA needles; **a sure-bet that you were fully aware was protected by LIABILITY IMMUNITY.** You enforced and encouraged censorship of the very type of information **that would have contributed to the true and complete informed consent of your “residents” . . . information sourced from censored Twitter users like Dr. Jay Bhattacharya.**

AG Keith Ellison Letter of 24 March 2021 to Twitter CEO Jack Dorsey, et al.**Con't**

As Attorneys General committed to protecting the safety and well-being of the residents of our states, we write to express our concern about the use of your platforms to spread fraudulent information about coronavirus vaccines and to seek your cooperation in curtailing the dissemination of such information.

Minnesota residents !? Your opening paragraph: ***“protecting the safety and well-being of the residents.”*** That is not merely farcical, it is fraudulent. Prior to your 24 March 2021 letter you were *fully aware* of the internal data *already* accumulated by your suitors at Pfizer-BioNTech. *

Chart internally produced by Pfizer, two weeks prior to Reference 1 :

BNT162b2		
5.3.6 Cumulative Analysis of Post-authorization Adverse Event Reports		
Table 1 below presents the main characteristics of the overall cases.		
Table 1. General Overview: Selected Characteristics of All Cases Received During the Reporting Interval		
	Characteristics	Relevant cases (N=42086)
Gender:	Female	29914
	Male	9182
	No Data	2990
Age range (years): 0.01 -107 years Mean = 50.9 years n = 34952	≤ 17	175 ^a
	18-30	4953
	31-50	13886
	51-64	7884
	65-74	3098
	≥ 75	5214
	Unknown	6876
<u>Case outcome:</u>	Recovered/Recovering	19582
	Recovered with sequelae	520
	Not recovered at the time of report	11361
	Fatal	1223
	Unknown	9400

A majority of the 1223 befell residents in states that are afflicted with “public servants” such as you. Do you even care which “Case Outcome” category was already assigned to Mrs. Nache? †

* I have already discussed (extensively) the Nuremburg Medical Tribunals with honest members of the Bar Association, and discussed various formats of its violation many times in prior COVID-19 letters.

† The second injection of the Pfizer mRNA poison was coerced upon Mrs. Nache by UMinn on 1 February 2021.

AG Keith Ellison Letter of 24 March 2021 to Twitter CEO Jack Dorsey, et al. Con't

You failed to disseminate **the whole truth in behalf of your residents.** `Truths already known and knowable about Pfizer mRNA needles; later documented by the court order of Judge Mark Pittman.

Instead, you used your offices at the behest of New World Order, World Economic Fund, World Health Organization, Bill Gates Foundation, and Open Society Foundation cohorts . . . alongside the CDC, the FDA, the NIH, the NIAID; and the mercenaries of Big Academia; ***pursuing everything but the whole truth !***

Case 4:21-cv-01058-P Document 35 Filed 01/06/22 Page 1 of 4 PageID 1715

UNITED STATES DISTRICT COURT
FOR THE NORTHERN DISTRICT OF TEXAS
FORT WORTH DIVISION

**PUBLIC HEALTH AND MEDICAL
PROFESSIONALS FOR TRANSPARENCY,**

Plaintiff,

v.

No. 4:21-cv-1058-P

FOOD AND DRUG ADMINISTRATION,

Defendant.

ORDER

In the context of your sworn oaths, **none** of the Reference 1 signatories filed amicus briefs in support of the lawsuit that rendered the above order. And consistent with Reference 1, **none** of you issued public service statements in support of rulings that provoked the following preposterous but typical headlines.

Sunday, March 05, 2023

Judge scraps 75-year FDA timeline to release Pfizer vaccine safety data, giving agency eight months

by Kaelan Deese, Supreme Court Reporter |  | January 07, 2022 10:39 AM

The letter of 24 March 2021 confirms that all twelve of you acted, and continue to act in the exactly opposite corrupt manner. (This section is continued on Page 16 below.)

Treasonous Assault Upon the United States Constitution by Attorneys General That Were Sworn to Uphold and Protect It – Part One

On Page 4 of Reference 4, I discuss Mr. Edward Dowd, formerly of BlackRock. Mr. Tucker Carlson featured Mr. Dowd on Fox News Tucker Carlson Today. ‡

The focus of the Carlson / Dowd interview was the horrific death statistics that you and your Attorney General thugs instigated/accommodated. Mr. Dowd discussed the preamble to his book **Cause Unknown** :

“ What is killing healthy young Americans?

*2020 saw a spike in deaths in America, smaller than you might imagine during a pandemic, some of which could be attributed to COVID and to initial treatment strategies that were not effective. But then, in 2021, the stats people **expected** went off the rails. The CEO of the OneAmerica insurance company publicly disclosed that during the third and fourth quarters of 2021, death in people of working age (18–64) was 40 percent higher than it was before the pandemic. Significantly, the majority of the deaths were not attributed to COVID.*

A 40 percent increase in deaths is literally earth-shaking. Even a 10 percent increase in excess deaths would have been a 1-in-200-year event. But this was 40 percent.

And therein lies a story—a story that starts with obvious questions:

What has caused this historic spike in deaths among younger people?

What has caused the shift from old people, who are expected to die, to younger people, who are expected to keep living?

‡ After blind receipt of my 3 January 2023 letter to Governor Ron DeSantis and to American Council of Life Insurers (ACLI) CEO Ms. Susan Neely.

Treasonous Assault Upon the United States Constitution by Attorneys General That Were Sworn to Uphold and Protect It – Part One Conclusion

It isn't COVID, of course, because we know that COVID is not a significant cause of death in young people. Various **stakeholders** opine about what could be causing this epidemic of unexpected sudden deaths, but "CAUSE UNKNOWN" doesn't opine or speculate. The facts just are, and the math just is.

Ask yourself if you recall seeing these kinds of things occurring during your own life in junior high? In high school? In college? How many times in your life did you hear of a performer dropping dead on stage in mid-performance? Your own life experience and intuition will tell you that what you're about to see is not **normal**.

Or at least it wasn't **normal** before 2021."

Normal? From "stakeholders" like you? An officer of the court? Your censoring of free speech . . . **and therefore elimination of true and complete informed consent**, in open denunciation of Nuremburg.

What we have come to "expect"? **The slandering of Mr. Dowd as an "anti-vaxxer" or worse** . . . and then in line with Reference 1, your efforts to ban his book?

INTERMISSION – Twitter Censorship Policy Comparator

The twelve attorneys general listed have zero medial training, zero medical experience, no education or credentials in immunology, vaccinology, medicine/pharmacology whatsoever. None have ever treated a patient. All promoted, without credible justification: face masks, social distancing, lockdowns, mandatory mRNA injection of health care workers such as Mrs. Jummai Nache. None have ever been banned from Twitter, despite not mere disinformation/misinformation, but outright fabrications regarding the COVID-19 mRNA needle promotions listed above.	The twelve PhDs / MDs listed have decades of medial training, medical experience, education and credentials in immunology, vaccinology or medicine/pharmacology. Most have successfully treated untold numbers of patients. None promoted face masks, social distancing, lockdowns, mandatory mRNA injection of health care workers such as Mrs. Jummai Nache. ALL had been banned from Twitter at the behest of the attorneys general listed at-left, but have been reinstated since Twitter acquisition by Mr. Elon Musk.
KEITH ELLISON - Minnesota	Dr. Robert Malone
MAURA HEALEY - Massachusetts	Dr. Peter McCullough
MARK HERRING - Virginia	Dr. Pierre Kory
LETITIA JAMES - New York	Dr. Michael Yeadon
KATHLEEN JENNINGS - Delaware	Dr. Jay Bhattacharya
TOM MILLER - Iowa	Dr. David Martin
PETER NERONHA - Rhode Island	Dr. Jane Ruby
DANA NESSEL - Michigan	Dr. Bryan Ardis
ELLEN ROSENBLUM - Oregon	Dr. Dan Erickson
JOSH SHAPIRO - Pennsylvania	Dr. Martin Kuldorff
JOSHUA STEIN - North Carolina	Dr. Jessica Rose
WILLIAM TONG - Connecticut	Dr. Joseph Ladapo

If Dr. Vladimir Zelenko, Dr. Kary Mullis, or Dr. Satoshi Ōmura had Twitter accounts, they would have been accused of “*spreading fraudulent information*,” slandered by the Center for Countering Digital Hate, and their account permanently suspended in accordance with the agenda of the AGs listed at-left. The censoring of the PhDs / MDs at-right, and many others, was encouraged by the twelve Reference 1 signatories.

Treasonous Assault Upon the United States Constitution by Attorneys General That Were Sworn to Uphold and Protect It – Part Two

Connected to the Carlson / Dowd interview, note that I have copied Ms. Susan K. Neely, CEO of the American Council of Life Insurers (ACLI). I have copied Ms. Neely on several prior COVID-19 letters. A sample of subject/references from a year ago (18 April 2022) :

Subject:	Reimbursement of Life Insurance Benefits Paid by ACLI Members; Resulting from Death Caused by the SARS-CoV-2 Virus, Lockdown Protocols, and the COVID-19 “Vaccine”

INTERMISSION – Twitter Censorship of Liability Immunity

With extensive, nationally recognized real-world experience in product liability, the undersigned is especially sensitive to the criminality of **LIABILITY IMMUNITY**.

It comes as no surprise that the American Bar Association, the Ivy League Law schools, and the George Soros funded AGs in-particular have sat idly; while crimes against humanity are rampant on a global scale, committed by New World Order subsidiaries like Pfizer.

On 13 December 2021 I was interviewed by the Stew Peters Network, the producers of the groundbreaking documentary film **DIED SUDDENLY**.

When I uploaded a copy of the above to my YouTube it was deleted IMMEDIATELY by YouTube CEO Ms. Susan Wojcicki on her claim that it “*Violated Community Guidelines*,” specifically her policy on “COVID misinformation.” It did no such thing.

When I uploaded a copy of the above to my @paulvsheridan Twitter account, it was banned IMMEDIATELY, by Mr. Jack Dorsey, on his claim that it violated “*Platform Use Guidelines*.” It did no such thing. My account was marked, and placed on a 30 day suspension.

INTERMISSION – Twitter Censorship of Liability Immunity Conclusion

Subsequent to initiation of Twitter acquisition by Mr. Elon Musk, I re-uploaded the above **LIABILITY IMMUNITY** interview, where it now remains uncensored :

Let us ponder at least one criminal aspect of the prior censorship outcomes; resulting from your letter of 24 March 2021 to Twitter CEO Jack Dorsey :

Twelve AGs, making claims of public service, **but actively withholding crucial legal information (liability immunity) from residents . . . legal information central to true and complete informed consent . . . a basic tenet of the Nuremburg Code.**

Mr. Ellison, you did not intercede, in behalf of constituent Mrs. Jummai Nache, to ensure that her employer (UMinn) informed her of the PREP Act which protects Pfizer with **LIABILITY IMMUNITY**. **Instead, you interceded in behalf of Pfizer (!?).**

You and your AG comrades have sent people to prison for *far less* . . .

Treasonous Assault upon the United States Constitution by Attorneys General That Were Sworn to Uphold and Protect It – Part Three

Page 8 above connects the AGs of Reference 1 to the premier Marxist socialist, anarchist goon ; Mr. George Soros and his agenda-spewing Open Society Foundation.

“Some wild right-wing rant by a “white supremacist” ? Another “conspiracy theory” ? **Hardly.** In fact, you openly boast of your intimacy with that subversive globalist psychopath . . . **on Twitter!**

So . . . Mr. Ellison . . . mere weeks after President Trump declared a National Emergency, you and comrade George Soros are offering “**coronavirus relief**” ?!

If there is a single piece of evidence confirming that Mrs. Jummai Nache never had-a-chance **against the onslaught of horrific mRNA injury** . . . it is your treasonous COVID-19 tweets of early 2020 praising an avowed unabashed enemy of the US Constitution . . . Mr. George Soros.

Mr. Manning Rudolph Johnson is turning in his grave . . .

**The AG Keith Ellison Letter of 24 March 2021 :
A Pfizer 75-Year Marketing Brochure Pre-Approved by Pfizer CEO Albert Bourla**

The claimed Subject of Reference 1 (screenshot);

Re: Vaccine Disinformation

But that is the *only* time that phrase appears; thereafter only “vaccine misinformation” is used. In fact, you then spew the word misinformation . . . ***nine times!*** Did your Bar exam include legal vocabulary:

Disinformation and misinformation have distinct legal definitions, focused especially upon actionable law enforcement; wherein you and the other AGs claim expertise.

Obviously couched in these distinctions, your suitor, Pfizer CEO Albert Bourla deployed the news media as an arm of his marketing department. In their usual servility, the Washington Post accommodated :

After publication of his marketing brochure (Reference 1), Mr. Bourla went on a globalist media frenzy, openly proclaiming that anyone who questioned his sales spiels about his mRNA needles were criminals; even making pre-emptive claims that ***they*** were motivated by profit **?!?**

“ People, make money, some of them, by playing with the emotions of people; are creating a whole conspiracy theory and they are trying to basically benefit and profit from the fear of the people. And this is who are the criminals! ”

This crap from the Pfizer CEO whose FDA lackeys took a mere three weeks to declare an mRNA needle “safe and effective,” a needle whose exact content remains undisclosed. But then, those same FDA lackeys claimed that the whole truth (existing real world *digital* data) about that very same Pfizer needle could not be made available for . . . 75 years!?

**Paul V. Sheridan Letter of 5 October 2022 :
The Response from Pfizer CEO Albert Bourla**

On Page 31 in my letter to Mr. Bourla, I quoted *another* member of the Bar Association, who *also* rails against the Constitution. Shortly before Reference 1, having even less expertise than the Bolsheviks that signed it, we have a Harvard Law professor declaring :

"Let me put it very clearly, you have no Constitutional right to endanger the public and spread the disease even if you disagree; you have no right not to be vaccinated, you have no right not to wear a mask, you have no right to open up your business. And if you refuse to be vaccinated the state has the power to literally take you to a doctor's office and plunge a needle into your arm!"

Professor Alan Dershowitz, Harvard Law School

Similar to the blatant disinformation spread by Reference 1, the polemical Harvard dolt asserts the same unfounded, unsubstantiated "vaccines only" lie . . . a lie that demanded injection of an mRNA poison.

In a demonstration of his character, Mr. Bourla ***did*** respond to my 5 October 2022 letter. . . **TWELVE TIMES**. Mind you, he did not answer any of my questions. He responded with insult . . . what else explains receiving the same exact diversionary response . . . twelve times . . . focused on a person that does not exist ?

I posted a video review of the Bourla response to YouTube. Ms. Susan Wojcicki immediately censored it, claiming it violated her "COVID Misinformation" guidelines. It does no such thing. I posted the same video to Rumble, where it remains intact :

<https://rumble.com/v247vpk-the-bourla-response.html>

https://www.pvsheridan.com/sheridan2fauci_pollack_bourla_trump-5-october-2022.pdf

Adolescent Backpedaling by “Doctor Science” and COVID Colleagues

In late 2022 the following paper was submitted, and then hurriedly published on 11 January 2023 :

True to form, the authors could not even write its Summary without immediately resorting to lies by commission and omission; their very first sentence reads:

“Viruses that replicate in the human respiratory mucosa without infecting systemically, including influenza A, SARS-CoV-2, endemic coronaviruses, RSV, and many other ‘common cold’ viruses, cause significant mortality and morbidity and are important public health concerns.”

Assuming we were all born-yesterday, the authors gloss over their not-so-subtle stampede; that influenza A and SARS-CoV-2 are of the same natural origin, of similar structure, similar infection pathways. This paper was authored prior to the recent Department of Energy study that confirms, what casual observers have known since late 2019: **SARS-CoV-2 was not developed by Chinese bats that frequent fish markets:**

The ReThinking Summary continues:

“Because these viruses generally do not elicit complete and durable protective immunity by themselves, they have not to date been effectively controlled by licensed or experimental vaccines.”

“Viruses . . . not to date effectively controlled by licensed or experimental vaccines” ?! Such as SARS-CoV-2? Now, after three years of horror induced by their “science,” are the authors forcefully but **preemptively** declaring the opposite? Are these criminals finally testifying that they *always* knew this?

“Experimental vaccines”? Like the mRNA needle that destroyed the life and health of Mrs. Jummai Nache, and was deployed under a fraudulent Emergency Use Authorization (EUA) of 11 December 2020, so that under **LIABILITY IMMUNITY** she had no legal wherewithal versus Pfizer and its CEO Albert Bourla?

Adolescent Backpedaling by “Doctor Science” and COVID Colleagues Con’t

Primary co-author of the ReThinking paper? In my 12 July 2022 letter to Ms. Martha Pollack (Cornell), I quote **Dr. Science** at his Pfizer mRNA sales meeting at the White House Coronavirus Task Force (19 November 2020) :

“As you well-know, Operation Warp Speed has been supporting directly and indirectly six candidate vaccines, four of which are either in or have completed Phase 3 clinical trials. I want to briefly tell you about two of them because you have to be interested in this, it is extraordinarily impressive.

Two of the vaccines, one by Moderna and one by the company Pfizer, have completed trials, and the efficacious, vaccine efficacy point is extraordinary. With regard to Pfizer, it was 95% efficacious, not only against disease that’s just clinically recognizable disease, but severe disease. There were ten cases of severe disease, one in the vaccine, nine in the placebo. For the Moderna trial, it was 94.5% efficacious. Eleven severe events, zero in the vaccine, eleven in the placebo.

For those of you not acquainted with the field of vaccinology, that is extraordinary. That is almost to the level of what we see with measles, which is 98% effective. So that’s what we’re dealing with.

*I used the word ‘efficacious.’ The means what happens in a clinical trial. The word ‘effective’ means, is what the ultimate impact of that vaccine is gonna have on society. **And the only way you can get an effective program is when the people take the vaccine.”***

Adolescent Backpedaling by “Doctor Science” and COVID Colleagues Con’t

Re-read that closing paragraph by Doctor Science. He spoon-feeds the Pfizer marketing staff (White House press corps) about the statistical terms efficacious versus effective. He mumbled :

“And the only way you can get an effective program is when the people take the vaccine.”

Trite, but only in appearance. We are dealing with Anthony Fauci; a person that Cornell University Professor of Chemistry, Dr. David Collum, described in a widely publicized interview of 3 August 2021 :

“He’s a pathological liar!”

Fauci’s *“when people take the vaccine”* is tantamount to admission that the Department of Defense (DoD) contract could only be financially effective if . . . people took the needle! [§]

So what actually happened? Examination of 23 June 2022 by Congressman Jim Jordan (R-OH) of another **pathological liar** . . . former White House Coronavirus Coordinator, Dr. Deborah Birx :

Question: Dr. Birx, can vaccinated people get COVID?

Answer: Yes.

Question: Have vaccinated people been hospitalized with COVID?

Answer: Yes.

Question: When the government told us that the vaccinated could not transmit the disease, was that a lie or was that a guess?

Answer: ***I think it was hope that the vaccine would work in that way . . .***

Hope?! Are you drafting a letter requiring Mr. Jeff Bozos *“to take immediate steps”* to censor the *“disinformation”* in her new book Silent Invasion?

[§] Pfizer finalized their *“Development and Licensure of Vaccines to Prevent COVID-19”* mRNA contract with the DoD on 21 July 2020, but received a **\$2,000,000,000.00** transfer **prior** to having any trials complete. When the FDA issued their EUA on 11 December 2020, Pfizer *then* had zero risk . . . the EUA provided **LIABILITY IMMUNITY**.

What occurred after that EUA and **LIABILITY IMMUNITY**? Twelve AGs contributed to the marketing of mRNA poisons by issuing a fraud laced memo to Big Tech demanding censorship of “anti-vaxxers.” Reference 1 is attached.

Adolescent Backpedaling by “Doctor Science” and COVID Colleagues *Conclusion*

Perhaps the most pathetic of the backpedaling comes from the Ivy League; institutions that the world once looked to for guidance; from the high-minded rigors of the academy to the real world demonstrations of ethics. But their stakeholder-premised response to COVID-19 has forever tarnished that once lofty perch. Acting as the Ivy League mouthpiece, we endure the dolt from Brown University, **Professor Emily Oster**.

Emboldened, or at-least justified by Reference 1, the following **Tweet** was inflicted upon the global peoples:

ProfEmilyOster ✓
@ProfEmilyOster

Vaccines vaccines vaccines vaccines vaccines vaccines
vaccines vaccines vaccines vaccines vaccines vaccines
vaccines vaccines vaccines vaccines vaccines vaccines
vaccines vaccines vaccines vaccines vaccines vaccines
vaccines vaccines vaccines vaccines vaccines vaccines
vaccines.

IDEAS

LET’S DECLARE A PANDEMIC AMNESTY

We need to forgive one another for what we did and said when we were in the dark
about COVID.

By Emily Oster

A stooge of the Ivy League, Ms. Oster is not merely “ReThinking” their COVID-19 position . . . exposed as servile charlatans, she is entering the classic “*Guilty with explanation*” plea. (Attachment 3)

Conclusion

I have been 'sitting on' Reference 1 for two years. Immediately I was repulsed by your audacity. But when such a **blatant assault** is mounted by alleged defenders-of the US Constitution, that onslaught **could not possibly be the result of ignorance or mere politics**. Your role is a deliberate legalistic subversion of our Constitutional Republic; the first but not the last vestige of sincere **attempts** at human dignity.

Reference 2 caused further vindication of my original and documented 2020 assessment :

There was nothing accidental about any aspect of the so-called COVID-19 pandemic.

Thematically, there is little difference between the testimony of the Twitter criminals, versus Reference 1; a letter signed by **TWELVE attorneys general**. The latter confirms that the **second** greatest Crime Against Humanity was not restricted to the Federal government. It was coordinated, and complemented by State level co-conspirators; re-listed in this 'public square' for clarity:

Mr. Keith Ellison - Minnesota	Ms. Maura Healey - Massachusetts	Mr. Mark Herring - Virginia
Ms. Letitia James - New York	Ms. Kathleen Jennings - Delaware	Mr. Tom Miller - Iowa
Mr. Peter Neronha - Rhode Island	Ms. Dana Nessel - Michigan	Ms. Ellen Rosenblum - Oregon
Mr. Josh Shapiro - Pennsylvania	Mr. Joshua Stein - North Carolina	Mr. Willian Tong - Connecticut

In truth, the letter of 24 March 2021 was the result of many hours of collusion, drafted and signed after a consensus of **Far Left lawyers**; motivated not by public service first-and-foremost, but by cues from an agenda driven body politic comprised of those **well-practiced in the veneer** of such, such as the Council on Foreign Relations (CFR). Relative to the instant Subject, an operative that comes to mind: **Exploitation**.

Conclusion

The facade that you were concerned with “*groups spreading falsehoods,*” is a fraud deployed to exploit the innocent. Knowing of the passionate, historically justified self-preservation based skepticism among peoples of Black African descent (regarding the needles promoted by Washington-based and globalist-based NGOs), you were compelled to focus on the so-called “racism card.” In your third paragraph you declare :

“Anti-vaxxers” are using social media platforms to target people of color and Black Americans specifically, members of communities who have suffered the worst health impacts of the virus and whose vaccination rates are lagging.

Mr. Ellison, are you saying that you and your eleven AG cohorts have evidence that Dr. Jay Bhattacharya and the list on Page 11 above were “***target(ing) people of color and Black Americans specifically***” ?

Are you claiming that Dr. Gregory L. Hall, author of the highly incremental book . . .

. . . was “***target(ing) people of color and Black Americans specifically***”? **

** My letter of a year ago to the good Dr. Hall : <https://www.pvsheridan.com/sheridan2hall-1-8august2022.pdf>

Conclusion

Prominent and credentialed persons were also the priority of your Twitter censorship crimes; such as Florida Surgeon General Dr. Joseph Ladapo :

Are you saying, in this instance *a priori*, that Dr. Ladapo was ***“target(ing) people of color and Black Americans specifically”***?

Your letter, addressed to the perjurious skanks pictured on Page 1, was not one of true admonishment. It was a ‘green light’ proclaiming that you and your political ilk would ‘have their back.’ You would cover for them if whacko First Amendment patriots dared to question the Twitter / Facebook censorship *per se* . . . and especially if they exposed its contextual Great Reset underbelly.

Throughout 2021 you were fully aware that your letter was no more than reductive crap. A major intent was to silence and disconnect (from each other) the large group of ordinary social media users. These people were routinely censored or banned for merely voicing safety concerns about the mRNA needle; the precise contents of which remain undisclosed to this day! One of the more despicable, but indicative ploys of your reductive crap is a bold-faced lie; a false conflation designed to bolster the marketing of the mRNA poison :

“Anti-vaxxers” = “People and groups spreading falsehoods and misleading Americans”

Contrary to claims of being sensitive about derogatory labels and exploitation, the Reference 1 signatories have no issue deploying such when it serves an agenda. Twitter users that choose not to be injected, with mRNA concoctions, and choose to post about their choice, are not “anti-vaxxers.” Only agenda-driven psychopaths would *feign* assumption that those users are motivated by a desire to do harm. As a reminder to you and your AG brethren : **Presumption of ill will is *thee* keystone of bigotry . . .**

Conclusion

As you were fully aware, in early 2021 reliable unbiased information on what you parroted in Reference 1 as a “vaccine” was not available. Indeed, only now can “anti-vaxxers” prove what they suspected about that real world “vaccine” information, partially by virtue of the Judge Mark Pittman order (Page 8 above.) You and your AG comrades intended to hide that information in perpetuity from an innocent trusting public.

You claimed at that *very* early stage, **of an EUA deployment of a never-before-used mRNA needle**, that Twitter users were guilty of, quote, “*spread(ing) fraudulent information about coronavirus vaccines.*” Your claim was not a misstatement; **it was a purposeful lie**. At that early stage, as officers of the court, you had zero long-term data and zero evidence in support of your sweeping allegations; let-alone your unfounded bloviating about “*safe and effective vaccines.*” Utter rubbish! Especially your final sentence:

By effectively rooting out fraudulent information about coronavirus vaccines, you can prevent needless illness and death and hasten our road to recovery.

In this context, you and your AG comrades are LIARS by commission.

But you, Mr. Minnesota Attorney General, in the context of Mrs. Nache are also a LIAR by omission.

If the mRNA needle is the magic bullet you claim, a widely mandated product devoid of any defects, a cure that will “*hasten our road to recovery,*” then why is it ***still*** protected by **liability immunity**?

If you are the public servant “*committed to protecting the safety and well-being of the residents,*” then why did you never challenge **the blatant lies of President Joe Biden regarding liability immunity**? (See Attachment 2)

Why did you never disclose to Minnesota residents, prior to mRNA injection, that the Pfizer needle is the **ONLY** product in US history that is protected from **liability litigation** !?

With all your fancy credentials, and all your fancy talk . . . why . . . **Mr. Minnesota Attorney General** . . . why did you fail to inform Mrs. and Rev. Nache about your detailed knowledge of liability immunity for Pfizer?

Philip and Jummai Nache are from the African country of Nigeria. They moved to the United States and now they tell other Africans who moved here about Jesus.

Conclusion

Mrs. Jummai Nache was coerced by her employer, the M Health Fairview University of Minnesota Medical Center, to submit to the mRNA needle:

1. That employer was uniquely qualified to disclose the detailed medical justification for their mandate, but they never did so,
2. M Health Fairview was uniquely qualified to disclose their intimate knowledge of the “adverse events,” already secretly disclosed to the FDA on 22 October 2020, **prior** to the EUA, but they never did so,
3. Instead, as just one example of their criminality, they purposely obscured / never formally disclosed the simple issue of liability immunity; **such disclosure by-itself would have been persuasive.**

Inspired by the likes of US Attorney General Merrick Garland, and his blatantly treasonous pre-planned **exploitations** of January 6th, it is unlikely that any of this will ‘get through’ to you or the AG comrades of Reference 1 (overleaf). Indeed, if you had your way, Mr. Tucker Carlson would also be banned in a manner, and for subversive purposes, similar to your banning of the PhDs / MDs on Page 11 above.

Attachment 1 is offered ‘with permission’ of Mrs. Jummai Nache and her family. Take a look at the results of your brand of public service . . . take a good *loooooooooong* look, **Mr. Minnesota Attorney General.**

There is nothing innocent or ignorant in your censorship contribution to that catastrophe . . . a young lady in the prime of her life and her career as a Medical Assistant; destroyed directly by the academic mercenaries at the University of Minnesota.

That young lady and her family are permanent residents from Nigeria. They intend to become US citizens in October 2024. They intend to pronounce in the ‘public square’ their sincere intent to protect and uphold the Constitution of the United States, **so help them God . . .**

Cordially,

Paul V. Sheridan

Re: Vaccine Disinformation

Dear Messrs. Dorsey and Zuckerberg:

As Attorneys General committed to protecting the safety and well-being of the residents of our states, we write to express our concern about the use of your platforms to spread fraudulent information about coronavirus vaccines and to seek your cooperation in curtailing the dissemination of such information. The people and groups spreading falsehoods and misleading Americans about the safety of coronavirus vaccines are threatening the health of our communities, slowing progress in getting our residents protected from the virus, and undermining economic recovery in our states.

As safe and effective vaccines become available, the end of this pandemic is in sight. This end, however, depends on the widespread acceptance of these vaccines as safe and effective. Unfortunately, misinformation disseminated via your platforms has increased vaccine hesitancy, which will slow economic recovery and, more importantly, ultimately cause even more unnecessary deaths. A small group of individuals use your platforms to downplay the dangers of COVID-19 and spread misinformation about the safety of vaccines. These individuals lack medical expertise and are often motivated by financial interests. According to a recent report by the Center for Countering Digital Hate¹, so-called “anti-vaxxer” accounts on Facebook, YouTube, Instagram, and Twitter reach more than 59 million followers. “Anti-vaxxers” are using social media platforms to target people of color and Black Americans specifically, members of communities who have suffered the worst health impacts of the virus and whose vaccination rates are lagging.

Page | 2

Given “anti-vaxxers” reliance on your platforms, you are uniquely positioned to prevent the spread of misinformation about coronavirus vaccines that poses a direct threat to the health and safety of millions of Americans in our states and that will prolong our road to recovery.

The updated community guidelines you have established to prevent the spread of vaccine misinformation appear to be a step in the right direction. However, it is apparent that Facebook has not taken sufficient action to identify violations and enforce these guidelines by removing and labelling misinformation and banning repeat offenders. As a result, anti-vaccine misinformation continues to spread on your platforms, in violation of your community standards.

- Twitter and Facebook have yet to remove from all their platforms the accounts of prominent “anti-vaxxers” who have repeatedly violated the companies’ terms of service. Digital media research groups estimate that as of March 10, 12 “anti-vaxxers” personal accounts and their associated organizations, groups and websites are responsible for 65% of public anti-vaccine content on Facebook, Instagram, and Twitter.
- Facebook has failed to consistently apply misinformation labels and popups on Facebook pages and groups that discuss vaccines or COVID-19. For example, the company neglected to apply warning labels on dozens of Facebook groups that “anti-vaxxer” Larry Cook created for his followers. At the same time, the company has mistakenly flagged pro-vaccine pages and content in ways that have undermined pro-vaccine public education efforts.
- Facebook has allowed anti-vaxxers to skirt its policy of removing misinformation that health experts have debunked, by failing to prevent them from using video and streaming tools like Facebook Live and sites like Bitchute, Rumble, and Brighteon to evade detection.

We call on you to take immediate steps to fully enforce your companies’ guidelines against vaccine misinformation. By effectively rooting out fraudulent information about coronavirus vaccines, you can prevent needless illness and death and hasten our road to recovery.

Sincerely,

WILLIAM TONG

DEMANDS: Your Public Correction and Apology as ‘Chief Medical Advisor to the President’ Addressing the Blatant Lie Proclaimed by President Biden Regarding “vaccine” Liability Immunity

Reference 1: State of the Union Address – 1 March 2022
Reference 2: My Letter to Fauci, Pollack, et al., of 19 January 2022

Dear Mr. Fauci:

You were present for Reference 1, and you are in-receipt of my many COVID letters including Reference 2.

During the State of the Union address of Tuesday, you personally observed the following **bold-faced and purposeful lie** proclaimed by your boss President Joe Biden:

“Repeal the liability shield that makes gun manufacturers the only industry in America that can’t be sued. The only one!”

Let us be clear, that outburst from the person many refer to as “*America’s first mail order president*,” was not a misstatement or a mistake. You, of all people, are aware of that inveracity; that it was a bold-faced lie:

“Repeal the liability shield that makes gun manufacturers the only industry in America that can’t be sued. The only one!”

This Administration lie was not accidentally spewed into a “hot mic.” This lie was openly declared during the State of the Union! **A lie so outrageous, that even Tucker Carlson remains in a state of shock:**

To put this Administration lie in perspective, I am once-again attaching the 'Mrs. Jummai Nache Photograph Progression' file. **As you are fully aware**, but ignore, the horror that befell the Christian family from Nigeria is not isolated. The adverse events data (being forcibly revealed by legal actions, overcoming the inveracity of your Big Pharma suitors) continues to confirm the "willful misconduct" that was central to your so-called 'Emergency Use Authorization' of 11 December 2020 (Attachment).

Before I assert and specify the instant DEMANDS, we review your highly motivated and self-absorbed quote to the Financial Times of London on 10 July 2020:

“ I have a reputation, as you probably have figured out, of speaking the truth at all times and not sugar-coating things. And that may be one of the reasons why I haven’t been on television very much lately.”

This quote came shortly after your bold-faced lies about hydroxychloroquine, and the “research” conducted by your suitors at Surgisphere, during your May 27, 2020 interview with the political dweebs at *Politico*.

Your big money quote came shortly before your “vaccine” promotional stunt at the Cornell University *StayHomecoming 2020* event, orchestrated by Ms. Martha Pollack, et al. This is relevant since at no time during that stunt, or thereafter, did you or Pollack declare that liability immunity existed for Big Pharma and their needles; needles that you were going to mandate against the Cornell students and staff, and the entire nation. That is, both of you are guilty of lying by omission; failing in your ‘duty to warn’ in the context of informed consent, and in the context of other legal and moral basics.

FORMAL DEMANDS

1. You are to assert in the Public Domain that you are the person that is, in the largest part, responsible for the 'liability immunity' that existed/was-enacted in behalf of Big Pharma and their "vaccines," and that such was pre-emptive/central to the so-called "COVID-19 pandemic."
2. You are to assert in the Public Domain that you were present at the 1 March 2022 State of the Union address, hearing first-hand the following statement by your boss, President Joe Biden:

"Repeal the liability shield that makes gun manufacturers the only industry in America that can't be sued. The only one! "

3. You are to assert in the Public Domain that the above declaration by the president of the United States is not merely a misstatement, **but a two-part bold-faced lie.**
4. You are to assert in the Public Domain your personal apology, for your intimate connections to Demand Item 1 above; an apology **directed to Mrs. Jummai Nache and her family.**
5. You are to assert in the Public Domain your personal apology, for your intimate connections to Demand Item 1 above; an apology directed to the Cornell University family.
6. You are to assert in the Public Domain your personal apology for your intimate connections to Demand Item 1 above; an apology directed to citizens and taxpayers of the United States.
7. You are to assert in the Public Domain your personal apology for not addressing openly and honestly, the existence of 'liability immunity' which resides with and was orchestrated solely for your Big Pharma comrades, **regarding the issue of informed consent.**
8. You are to assert in the Public Domain the following legal fact : As more truth is revealed regarding (a) the manner in which SARS-CoV-2 and its variants came into existence, (b) the decades-old history of how "COVID-19 vaccines" were developed, (c) how the "COVID-19 vaccines" were deployed under the Emergency Use Authorization, and (d) the concealment of ongoing adverse events data (worldwide); that as these revelations confirm **the long-standing and ongoing existence of "willful misconduct,"** that such revelations vacate the protections/provisions of your liability immunity; that the latter is no longer legally valid, and that civil liability lawsuits are justified and viable.

Please do not hesitate to contact me at any time.

Cordially,

Paul V. Sheridan

**The Official Ivy League Request for Pardons:
For Themselves and Primary COVID Co-Criminals**

A

The Atlantic

IDEAS

LET'S DECLARE A PANDEMIC
AMNESTY

We need to forgive one another for what we did and said when we were in the dark
about COVID.

By Emily Oster

A screenshot of a tweet from a user named ProfEmilyOster, whose handle is @ProfEmilyOster. The user's profile picture shows a woman with dark hair wearing a blue top. The tweet text consists of the word "vaccines" repeated 18 times in a single line. The tweet is timestamped 17:19 on 17.12.21 and was posted via the Twitter Web App. Three dots are visible in the top right corner of the tweet interface.

The Official Ivy League Request for Pardons: For Themselves and Primary COVID Co-Criminals

On 12 October 2022 the president of Brown University, received my letter of **5 October 2022**; UPS [1Z1723W70297975513](#). (The seven-day delay involves my policy of forwarding the courtesy copies, but only after addressee SPODs are available.) :

The open addressees of my 5 October letter were:

Mr. Anthony Fauci (National Institute of Allergy and Infectious Diseases – NIAID)

Ms. Martha Pollack (Cornell University)

Mr. Albert Bourla (CEO of Pfizer Inc.)

Mr. Donald Trump (Former president of USA)

The open courtesy copies are listed on Pages *i* thru *iv*.

The president of Brown University Ms. Christina Hull Paxson is a courtesy copy; she is listed on Page *ii* of *iv*. My letter of 5 October 2022 involved the following subjects/references:

Subject :	Mrs. Jummai Nache and her Family		
Reference 1 :	The “Fauci Effect”	Reference 2 :	The Pollack Effect
Reference 3 :	The Bourla Effect	Reference 4 :	The Trump Vaccine

The 5 October 2022 letter is available here:

<https://pvsheridan.com/sheridan2fauci-9-5-october-2022.pdf>

On Page 8 of 92, I introduce Brown University; without mentioning his university affiliation I discussed and pictured Dr. Ashish Jha, Biden’s new Coronavirus Response Coordinator.

But I return to Brown University in-depth on Pages 25 and 26 of 92.

On Page 25 I placed a screenshot of the 22 August 2022 letter sent to Brown University president Ms. Christina Hull Paxson *from* Rhode Island State Representative Ms. Patricia Morgan. (I later forwarded my 5 October 2022 letter to Representative Morgan under UPS [1Z1723W70297949891](#)).

On Page 26 I re-introduce Brown University Dr. Ashish Jha . . . Biden's new Pfizer sales rep.

The Official Ivy League Request for Pardons: For Themselves and Primary COVID Co-Criminals

Approximately two weeks after the above logistics, on 31 October 2022, Professor Emily Oster is cajoled, most likely by Brown University administrators and lawyers, into her diversionary fairy tale entitled:

Let's Declare a Pandemic Amnesty

The Professor Oster diversions are available here:

<https://www.theatlantic.com/ideas/archive/2022/10/covid-response-forgiveness/671879/>

On that very same day, 31 October 2022; when the Oster sputum was uploaded to *The Atlantic*, the Brown University president was one of thirteen officials (eight Ivy League presidents and five law school deans) that received my follow-up letter of 27 October 2022.

Brown University President Ms. Christina Hull Paxson received the 27 October 2022 letter under UPS 1Z1723W70219864842. My follow-up is available here:

<https://pvsheridan.com/heridan2ivyleague-2-27october2022.pdf>

The Official Ivy League Request for Pardons: For Themselves and Primary COVID Co-Criminals

My letter of 27 October 2022 involved the following subjects / references:

- Subject :** **Enactment of the COVID-19 “Pandemic”** Ivy League Criminal Participations in Denial of Religious Exemptions; Lockdowns, Social Distancing, Face Mask and mRNA Mandates; Deliberate Spreading of Blatant Disinformation that mRNA Needle Obviated Transmissibility
- Reference 1 :** My Letter of 5 October 2022 : Mrs. Jummai Nache and her Family *
- Reference 2 :** The True Character of Mr. Albert Bourla – “The Vaccine King” Pfizer Incorporated Response to Reference 1
- Reference 3 :** **Further Subject Confirmation** – European Parliament Special Committee on the COVID-19 Pandemic, Sworn Testimony of Pfizer Marketing Executive Ms. Janine Small under Examination by Parliamentarian Mr. Rob Roos – 10 October 2022

Regarding **Enactment of the COVID-19 “Pandemic,”** Brown University administrators had strenuously endorsed and enforced the typical Tweets of Professor Emily Oster :

ProfEmilyOster
@ProfEmilyOster

Shaming people who haven't gotten vaccinated is not likely to work at this point (or ever).

What will?

Individual family pressure: Maybe
Vaccine requirements for things you want to do (domestic air/train travel, work, sports events): Yes.

We can have these without shame.

The Official Ivy League Request for Pardons: For Themselves and Primary COVID Co-Criminals

ProfEmilyOster
@ProfEmilyOster

@BAMayer427 To be clear: I'm not suggesting we say "you do you" to the non-vaxxers. The other side here is vaccinated people who continue to see unvaccinated relatives, which I think is a more complicated choice with multiple reasonable solutions.

The Encyclopedia Britannica makes a precise distinction; a distinction that my letters to the Ivy League openly declare, but one that they and Ms. Oster have schemed to divert you from:

“Technically, however, an amnesty differs from a general pardon in that the latter simply relieves from punishment whereas the former declares innocence or abolishes the crime.” <https://www.britannica.com/topic/amnesty>

In other words, Ms. Oster and her Ivy League superiors have fooled no one. But the underbelly to these COVID machinations openly affirms the jurisdiction / adjudications of the Racketeer Influenced and Corrupt Organizations Act (RICO) . . .

The Official Ivy League Request for Pardons: For Themselves and Primary COVID Co-Criminals

. . . but no one has yet **correctly** gleaned / documented the REAL focus; the intended beneficiary of the Professor Emily Oster diversions. Indeed, given her obvious limited intellect, it is likely that Ms. Oster is herself unaware of that focus / beneficiary.

I will be documenting the REAL issue, and in-depth. These matters, provoked further by *The Atlantic* article, are deeply personal and deeply unfortunate/burdensome. For the undersigned, the REAL focus is obvious and broadly ensnares the now morally compromised, if not fatally wounded, Ivy League universities, especially my alma mater Cornell University:

Genesis Prize Award Ceremony 2022 – Honoring Dr. Albert Bourla

HINT: I will be forcefully announcing to the Cornell University Board of Trustees (Mr. Kraig H. Kayser, Class of 1984, presiding), my adamant aversion and formal opposition to any monies / donations received from Pfizer, Inc., direct or indirect. And specifically, my morally and ethically premised opposition to any psychotic plans that Ms. Martha Pollack may have of erecting a “Bourla Hall” upon the campus of my esteemed alma mater, Cornell University.

Memo: While this was in-draft, Dr. Paul E. Alexander uploaded to his SubStack Newsletter my 27 October 2022 letter to the Ivy League presidents and law school deans; available here:

<https://palexander.substack.com/p/enactment-of-the-covid-19-pandemic>

The Official Ivy League Request for Pardons: For Themselves and Primary COVID Co-Criminals

Preliminary Conclusion

For the benefit of the innocent global peoples, **we must not allow Ivy League administrators to just walk away** . . . they deployed/abused those universities as the institutional SEED for other universities/schools to follow . . . the SEED for the monkey-see-monkey-do machinations of the latter that led to everything from the suicide of 16 year old Spencer Smith to the amputation horrors of Mrs. Jummai Nache . . . and so much more.

In grotesque fashion, the diversionary sputum in *The Atlantic* by Professor Emily Oster seeks, among other schemes, to 'just walk away.' Many have suggested that receipt of my recent letters by her superior, Brown University President Christina Paxson, **instigated this attempt at legalistic preemption in behalf of the REAL focus. But it is too late for that exodus.**

Further, how many Ivy League students and staff, and their captured medical school staffs were given the opportunity to exercise "informed consent" regarding LIABILITY IMMUNITY ? **ZERO!**

On the other hand . . . how many times does Brown University Professor Emily Oster disobey authorship directives . . . and therefore discuss "amnesty" for the criminal conspiracy endemic to LIABILITY IMMUNITY? **ZERO!**

The above interview here: <https://rumble.com/vqpxyf-beyond-willful-misconduct-bioweapon-victims-demand-shutdown-of-vaxx-program.html>

IDEAS

LET'S DECLARE A PANDEMIC AMNESTY

We need to forgive one another for what we did and said when we were in the dark about COVID.

By Emily Oster

Katie Martin / The Atlantic; Paolo Veronese; Getty

OCTOBER 31, 2022

In April 2020, with nothing else to do, my family took an enormous number of hikes. We all wore cloth masks that I had made myself. We had a family hand signal, which the person in the front would use if someone was approaching on the trail and we needed to put on our masks. Once, when another child got too close to my then-4-year-old son on a bridge, he yelled at her “SOCIAL DISTANCING!”

These precautions were totally misguided. In April 2020, no one got the coronavirus from passing someone else hiking. Outdoor transmission was vanishingly rare. Our cloth masks made out of old bandanas wouldn't have done anything, anyway. But the thing is: *We didn't know.*

I have been reflecting on this lack of knowledge thanks to a class I'm co-teaching at Brown University on COVID. We've spent several lectures reliving the first year of the pandemic, discussing the many important choices we had to make under conditions of tremendous uncertainty.

Some of these choices turned out better than others. To take an example close to my own work, there is an emerging (if not universal) consensus that schools in the U.S. were closed for too long: The health risks of in-school spread were relatively low, whereas the costs to students' well-being and educational progress were high. The latest figures on learning loss are alarming. But in spring and summer 2020, we had only glimmers of information. Reasonable people—people who cared about children and teachers—advocated on both sides of the reopening debate.

Derek Thompson: School closures were a failed policy

Another example: When the vaccines came out, we lacked definitive data on the relative efficacies of the Johnson & Johnson shot versus the mRNA options from Pfizer and Moderna. The mRNA vaccines have won out. But at the time, many people in public health were either neutral or expressed a J&J preference. This misstep wasn't nefarious. It was the result of uncertainty.

Obviously *some* people intended to mislead and made wildly irresponsible claims. Remember when the public-health community had to spend a lot of time and resources urging Americans not to inject themselves with bleach? That was bad. Misinformation was, and remains, a huge problem. But most errors were made by people who were working in earnest for the good of society.

Given the amount of uncertainty, almost every position was taken on every topic. And on every topic, someone was eventually proved right, and someone else was proved wrong. In some instances, the right people were right for the wrong reasons. In other instances, they had a prescient understanding of the available information.

The people who got it right, for whatever reason, may want to gloat. Those who got it wrong, for whatever reason, may feel defensive and retrench into a position that doesn't accord with the facts. All of this gloating and defensiveness continues to gobble up a lot of social energy and to drive the culture wars, especially on the internet. These discussions are heated, unpleasant and, ultimately, unproductive. In the face of so much uncertainty, getting something right had a hefty element of luck. And, similarly, getting something wrong wasn't a moral failing. Treating pandemic choices as a scorecard on which some people racked up more points than others is preventing us from moving forward.

Read: You were right about COVID, and then you weren't

We have to put these fights aside and declare a pandemic amnesty. We can leave out the willful purveyors of actual misinformation while forgiving the hard calls that people had no choice but to make with imperfect knowledge. Los Angeles County closed its beaches in summer 2020. Ex post facto, this makes no more sense than my family's masked hiking trips. But we need to learn from our mistakes and then let them go. We need to forgive the attacks, too. Because I thought schools should reopen and argued that kids as a group were not at high risk, I was called a "teacher killer" and a "*génocidaire*." It wasn't pleasant, but feelings were high. And I certainly don't need to dissect and rehash that time for the rest of my days.

Moving on is crucial now, because the pandemic created many problems that we still need to solve.

Student test scores have shown historic declines, more so in math than in reading, and more so for students who were disadvantaged at the start. We need to collect data, experiment, and invest. Is high-dosage tutoring more or less cost-effective than extended school years? Why have some states recovered faster than others? We should focus on questions like these, because answering them is how we will help our children recover.

Many people have neglected their health care over the past several years. Notably, routine vaccination rates for children (for measles, pertussis, etc.) are way down. Rather than debating the role that messaging about COVID vaccines had in this decline, we need to put all our energy into bringing these rates back up. Pediatricians and public-health officials will need to work together on community outreach, and politicians will need to consider school mandates.

The standard saying is that those who forget history are doomed to repeat it. But dwelling on the mistakes of history can lead to a repetitive doom loop as well. Let's acknowledge that we made complicated choices in the face of deep uncertainty, and then try to work together to build back and move forward.

Emily Oster is an economist at Brown University. She is the author of *The Family Firm: A Data-Driven Guide to Better Decision Making in the Early School Years* and *Expecting Better: Why the Conventional Pregnancy Wisdom Is Wrong—and What You Really Need to Know*.

State of Rhode Island and Providence Plantations

HOUSE OF REPRESENTATIVES

REPRESENTATIVE PATRICIA L. MORGAN, *District 26*

Christina Paxson, Ph.D.
Office of the President, Brown University
1 Prospect Street, Box 1860
Providence, RI 02912
Tel: (401) 863-2234
Fax: (401) 863-7737
e-mail: president@brown.edu

August 22, 2022

Dear Dr. Paxson,

I am a Representative who champions informed consent for Rhode Island residents. My concerns, expressed below, are shared by four Rhode Island physicians who have endorsed this letter.

As the president of an educational institution that holds both a medical school and extensive research facilities, I am sure that you will agree with me that when our citizens make healthcare decisions, we are obligated to give them as much pertinent information as possible. Providing each person with thorough and complete data allows them to make informed decisions. They are, after all, the ultimate recipients of the consequences. To my knowledge, that policy of medical transparency is an expectation and imperative in our healthcare system.

Each night as I watch television, I view commercials for drugs and treatments that are accompanied by a list of possible adverse reactions, because patients deserve to have all the facts as they make their decisions. Medical mandates that are not accompanied by complete transparency based on the most up-to-date data and facts are an anathema to responsible medical practice and leadership.

It is my understanding that Brown University under your direction has mandated coronavirus vaccination for every student. Exemptions are rarely given. It has also come to my attention that you are not providing students with a complete understanding of the benefits, risks, and possible complications of vaccination. I would like to understand the reasoning behind your rejection of standard practices of medical transparency for Brown University students.

As an example, the following matter of concern was brought to my attention by a colleague, Rhode Island academic physician-epidemiologist, Andrew G. Bostom, MD, MS, whose [distinguished career](#) included his residency training, and faculty [clinical research](#), practice, and teaching, at the Brown University Medical School, over the past 30-years.

Dr. Bostom obtained and recorded (transcript [here](#); audio [here](#)) the testimony of a respected Rhode Island Cardiologist who was on call when a 20-year-old, male Brown University student,

in March, 2021, was admitted to The Miriam Hospital for a covid-19 mRNA vaccine-induced “myopericarditis” (i.e., a serious inflammation of the heart muscle, and its suspending sack).

The Cardiologist informant’s narrative was independently corroborated by Dr. Bostom using three separate, de-identified (and [HIPPA compliant](#)) public sources:

- A Vaccine Adverse Event Reporting System (VAERS) [case report](#) (elaborated [here](#))
- The Rhode Island Department of Health 2021 [hospitalization database](#) (elaborated [here](#))
- A 9/9/21 [publication](#) by Y. Patel, et al, of The Brown University Cardiology Division (discussed [here](#))

I share Dr. Bostom’s concern that during the 17-months which have elapsed since this serious vaccine injury, Brown University has never acknowledged it occurred, which could have readily been done while protecting the anonymity of the student victim. Moreover, the University has not shared that information (again, anonymously) with its own [most at risk](#), healthy young male 18 to 24 year old student population. Such concealment violates the ethics of risk/benefit-based informed consent, which applies to all vaccinations, including those that are [deemed mandatory](#).

It is not beyond possibility that the Brown University student population has also experienced specific covid-19 lung disease (“pneumonia,” or “lower respiratory tract infection”) resulting in undisclosed hospitalizations. If any students have experienced such serious infection, their adverse outcomes, too, should be enumerated, and presented to your students as part of an appropriate risk/benefit-based informed consent process.

Brown University’s current informed consent process for COVID-19 vaccination simply refers students to templates like [this one](#) from RIDOH. None of the following established adverse reactions **conferred** by covid vaccines are mentioned: [anaphylaxis](#), [myocarditis/pericarditis](#); [thrombosis with thrombocytopenia](#); [Bell’s Palsy](#), [Guillain-Barré syndrome](#), cardiac dysrhythmia (esp. [atrial fibrillation](#)), and [rashes](#). Omission of myocarditis is particularly troubling because this illness has serious and debilitating complications, and your university has experienced the specific case of a Brown student post-covid vaccine myopericarditis that Dr. Bostom has uncovered.

My concern for complete transparency so students may make informed decisions as relates to their healthcare choices is shared by the doctors cosigning this letter. Together, we call upon Brown to belatedly acknowledge its student case of covid vaccine-induced myopericarditis from March, 2021, and set the example of true risk/benefit-based informed consent for Rhode Island, going forward.

Given both the [proliferation](#) of natural immunity, and [evolution](#) of SARS-CoV-2 into an overwhelmingly [upper respiratory tract](#) infection, whose serious morbidity risk to healthy students is below even the [minimal risk](#) posed by ancestral strains, we, the undersigned, also urge Brown University to withdraw the vaccine mandate altogether. Finally, we, the undersigned, note that both [The University of Rhode Island](#), and [Providence College](#) here in Rhode Island previously dropped their covid-19 vaccine mandates.

Sincerely,

Supreme Court of Florida

THURSDAY, DECEMBER 22, 2022

CASE NO.: SC22-1710

STATEWIDE GRAND JURY #22

ORDER DIRECTING IMPANELMENT OF A
STATEWIDE GRAND JURY

Supreme Court of Florida

THURSDAY, DECEMBER 22, 2022

CASE NO.: SC22-1710

STATEWIDE GRAND JURY #22

ORDER DIRECTING IMPANELMENT OF A STATEWIDE GRAND JURY

THE COURT has received a Petition from the Honorable Ron DeSantis, Governor of Florida, for an order to impanel a statewide grand jury. “[T]his Court’s responsibility in impaneling a statewide grand jury is ‘ministerial in nature’” and is limited to reviewing whether the petition meets the statutory requirements. *State ex rel. Reichle v. Edwards*, 409 So. 2d 1043, 1044 (Fla. 1982) (quoting *In re Advisory Opinion to the Governor*, 290 So. 2d 473, 474 (Fla. 1974)). Being fully advised of the relevant matters, the Court hereby finds as follows:

A. The Petitioner, the Honorable Ron DeSantis, Governor of Florida, has alleged that good and sufficient reason exists and that it is in the public interest to impanel a statewide grand jury, with jurisdiction throughout the State of Florida, to investigate crime, return indictments, make presentments, and otherwise perform all functions of a grand jury with regard to the offenses listed in section 905.34, Florida Statutes (2022).

B. The matters to be inquired into are any offense listed in section 905.34 that:

(1) relates to the following:

(a) Individuals, persons, and entities, including, but not limited to, pharmaceutical manufacturers (and their executive officers) and other medical associations or organizations involved in the design, development, clinical testing or investigation, manufacture, marketing, representation, advertising, promotion, labeling, distribution, formulation, packing, sale, purchase, donation, dispensing, prescribing, administration, or use of vaccines purported to prevent COVID-19 infection, symptoms, and transmission;

(b) other criminal activity or wrongdoing that the statewide grand jury uncovers during the course of the investigation if it determines that pursuing the criminal activity or wrongdoing is in the best interests of the investigation;

and

(2) is occurring, or has occurred, in two or more judicial circuits as part of a related transaction or is connected with an organized criminal conspiracy affecting two or more judicial circuits, as required by section 905.34, Florida Statutes.

WHEREFORE, THE COURT, pursuant to the provisions of sections 905.31 through 905.40, Florida Statutes, Statewide Grand Jury Act, hereby orders as follows:

1. A statewide grand jury shall be promptly impaneled for a term of twelve calendar months, to run from the date of impanelment, with jurisdiction throughout the State of Florida, to investigate crime, return indictments, make presentments, and otherwise perform all functions of a grand jury with regard to the offenses stated herein.

2. The statewide grand jury shall be drawn from the certified jury lists submitted by the chief judges of the Fifth, Sixth, Tenth, Twelfth, and Thirteenth Judicial Circuits.

3. The Honorable Ronald Ficarrotta, Chief Judge in and for the Thirteenth Judicial Circuit, is designated as presiding judge over the statewide grand jury. In his capacity as the presiding judge, the Honorable Ronald Ficarrotta shall maintain judicial supervision of the statewide grand jury, and all indictments, presentments, and formal returns of any kind made by such grand jury shall be returned to the presiding judge. The presiding judge may designate an alternate presiding judge in the event of calendar conflicts or otherwise and to assist in the administrative process of the statewide grand jury.

4. John A. Tomasino, Clerk of the Supreme Court of Florida, is hereby designated clerk of this statewide grand jury and is empowered to deputize any clerk of a circuit court or any deputy clerk of a circuit court to issue necessary process and to carry out the administrative functions of the statewide grand jury.

MUÑIZ, C.J., and CANADY, POLSTON, COURIEL, and GROSSHANS, JJ., concur.

LABARGA, J., would deny.

FRANCIS, J., did not participate.

IN THE SUPREME COURT OF FLORIDA

IN RE:

STATEWIDE GRAND JURY

CASE NO: SC22-_____

_____ /

PETITION FOR ORDER TO IMPANEL
A STATEWIDE GRAND JURY

Petitioner, Ron DeSantis, Governor of the State of Florida, respectfully petitions this Court under section 905.33, Florida Statutes (2022), for an order to impanel a statewide grand jury. As grounds for the petition, Petitioner offers the following:

Jurisdiction

1. Petitioner, Ron DeSantis, is the Governor of the State of Florida.
2. This Court has jurisdiction over this matter under section 905.33(1), which provides:

Whenever the Governor, for good and sufficient reason, deems it to be in the public interest to impanel a statewide grand jury, she or he may petition in writing to the Supreme Court for an order impaneling a statewide grand jury. . . . The Supreme Court may order the impaneling of a statewide grand jury, in accordance with the petition, for a term of 12 calendar months.

3. Petitioner has consulted with the Attorney General and the statewide prosecutor regarding this petition. The statewide

prosecutor will serve as the legal adviser to the statewide grand jury. See § 905.36, Fla. Stat.

4. For the good and sufficient reasons described below, Petitioner has determined that it is in the public interest to impanel a statewide grand jury and that the crimes and wrongs to be investigated, as also set forth below, are of a multicircuit nature. See § 905.33(1), Fla. Stat.

Factual Background

5. The federal government, medical associations, and other experts have created an expectation that receiving a COVID-19 vaccine is an ethical or civic duty and that choosing not to get vaccinated against COVID-19 is selfish and harmful to others.¹ As one politician in another state put it, if a person chooses not to receive a vaccine, they

¹ *E.g.*, Joan Bregstein, *Think about getting vaccinated like voting. It's your civic duty*, The Washington Post (Dec. 28, 2020, 12:54 PM), [tinyurl.com/3uh9zsh7](https://www.washingtonpost.com/health/3uh9zsh7); President Joseph Biden, *Remarks by President Biden Laying Out the Next Steps in Our Effort to Get More Americans Vaccinated and Combat the Spread of the Delta Variant*, The White House (July 29, 2021), [tinyurl.com/47tx46v2](https://www.whitehouse.gov/briefing-room/statements-releases/2021/07/29/20210729-statement-by-president-biden-on-the-next-steps-in-our-effort-to-get-more-americans-vaccinated-and-combat-the-spread-of-the-delta-variant/) (President Biden stated, “[g]et vaccinated — for yourself, for the people you love, for your country.”); Press Release, Major Health Care Professional Organizations Call for COVID-19 Vaccine Mandates for All Health Workers, Ass’n. of Am. Med. Colls. (July 26, 2021), [tinyurl.com/yckbyyh7](https://www.aamacoll.org/press-releases/2021/07/26/major-health-care-professional-organizations-call-for-covid-19-vaccine-mandates-for-all-health-workers/).

might “go home and kiss [their] grandmother and wind-up killing [their] grandmother.”²

6. While Florida rejected vaccine mandates and passports, some Floridians made the choice to receive the COVID-19 vaccine because they believed that receiving the vaccine would prevent them from spreading COVID-19 to others.

7. The widespread belief that the COVID-19 vaccines prevented the disease from spreading became so pervasive that the President of the United States himself believed it to be true. He sought to impose a variety of vaccine mandates on the American people, including healthcare workers and members of the military, which were premised on the notion that “unvaccinated people spread the virus” and “the best way to slow the spread of COVID-19 and to prevent infection by the Delta variant or other variants is to be vaccinated.”³

Reg. 50,989 (Sept. 9, 2021), tinyurl.com/3ru3ncuf; Press Briefing, President Joseph Biden, *Remarks by President Biden on Fighting the COVID-19 Pandemic*, The White House (Sept. 9, 2021), tinyurl.com/45zepbs2; President Joseph Biden, *Remarks by President Biden Laying Out the Next Steps in Our Effort to Get More Americans Vaccinated and Combat the Spread of the Delta Variant* (July 29, 2021), tinyurl.com/47tx46v2.

He even stated that “[y]ou’re not going to get Covid if you have these vaccinations.”⁴

8. Florida’s prohibitions on vaccine requirements could not prevent all federal vaccine requirements, such as those for military members. Many Floridians serving in Florida and abroad were forced to submit to COVID-19 vaccination as a condition of employment. These mandates were imposed even as evidence surfaced of increased cases of myocarditis and pericarditis in those vaccinated.⁵

9. Various state and federal health authorities, including the Centers for Disease Control and Prevention (CDC), held the belief that the vaccines prevented transmission, and in turn issued guidance recommending the vaccines as effective at “limiting the spread of the virus that causes it.”⁶ The CDC’s website stated the vaccines were “safe and effective as determined by data from the manufacturers,” but that statement was later removed.⁷ The CDC also advised that

“COVID-19 vaccination can reduce the spread of disease overall, helping protect people around you.”⁸ Dr. Anthony Fauci, Director of the National Institute of Allergy and Infectious Diseases, unequivocally asserted that the vaccines prevented transmission.⁹ And the White House issued a press briefing just last year, only days before Christmas, threatening “the unvaccinated” with “a winter of severe illness and death.”¹⁰

10. It is impossible to imagine that so many influential individuals came to this view on their own. Rather, it is likely that individuals and companies with an incentive to do so created these perceptions for financial gain.

11. For example, on November 30, 2020, the Chief Executive Officer of Moderna told the public that a study “confirms the ability of our vaccine to prevent COVID-19 disease with 94.1% efficacy.”¹¹

12. Pfizer similarly stated that its vaccine was “highly effective with 91.3% vaccine efficacy observed against COVID-19 . . . through up to six months after the second dose.”¹² Pfizer’s CEO, Albert Bourla, stated that its “COVID-19 vaccine was 100% effective” in preventing cases in South Africa.¹³

13. Moderna promoted an article on its Twitter page titled “10 Common Vaccine Myths Busted,” which stated that “[g]etting vaccinated is like wearing a mask—it isn’t just about protecting you, but also your community” and “[t]he more people who are vaccinated, the fewer chances a disease has to spread.”¹⁴

14. Both Pfizer and Moderna use their websites to promote the theory that their COVID-19 vaccines help develop “herd immunity.” According to Moderna, herd immunity is the “indirect group protection from an infectious disease that happens when a population is immune through either vaccination or previous infection.”¹⁵ Moderna’s website states that “[t]o safely achieve herd immunity against COVID-19, a large amount of a population needs to be vaccinated” and that this “help[s] protect those who cannot get vaccinated.”¹⁶ Moderna recommends COVID-19 vaccination “even if you are healthy” because a vaccine may “[a]dd to the number of people in the community who are protected from getting COVID-19, contributing to herd immunity.”¹⁷

15. Pfizer’s website asserts that “[w]hen enough people are vaccinated, everyone—including those who are too young or too sick to be immunized—receives some protection from the spread of

diseases.”¹⁸ Pfizer’s Twitter page states that “[t]he ability to vaccinate at speed to gain herd immunity and stop transmission is our highest priority” and that “[v]accination remains the best tool we have to help protect lives and achieve herd immunity.”¹⁹

16. Some representations by the pharmaceutical manufacturers even suggested that the vaccines would help end the pandemic.²⁰

17. In January 2021, Moderna CEO Stephane Bancel stated, “[t]he antibody decay generated by the vaccine in humans goes down very slowly” and “[w]e believe there will be protection potentially for a couple of years.”²¹ Yet not even a year later, Bancel announced that

clinical studies indicating an increased risk of breakthrough infections “illustrates the impact of waning immunity and supports the need for a booster to maintain high levels of protection.”²²

18. Only months ago, a Pfizer executive confirmed at a hearing in front of the European Parliament that the company did not test its COVID-19 vaccines before they entered the market to determine whether they prevented the transmission of COVID-19.²³

19. On December 29, 2020, the World Health Organization’s chief scientist, Dr. Soumya Swaminathan, stated that there was a lack of evidence “to be confident that it’s going to prevent people from actually getting the infection and therefore being able to pass it on.”²⁴

²² Press Release, Moderna Highlights New Clinical Data on its COVID-19 Vaccine, Moderna, Inc., (Sept. 15, 2021), tinyurl.com/3pbxj22a.

²³ During a hearing on the European Union’s COVID-19 response, when asked if the Pfizer vaccine was tested on stopping the transmission of the virus before it entered the market, Pfizer’s president of international developed markets stated “[n]o . . . we have to really move at the speed of science to really understand what is taking place in the market . . . and from that point of view we had to do everything at risk.” *Special Committee On COVID-19 Pandemic*, Eur. Parl. (Oct. 10, 2022), tinyurl.com/ku2w7u3z; news.com.au, Pfizer did not know whether Covid vaccine stopped transmission before rollout (Oct. 12, 2022), Youtube, tinyurl.com/4f4vam8z.

²⁴ Sky News Australia, *WHO Doesn’t have evidence vaccines prevent people transmitting virus to others*, Youtube (Dec. 28, 2020), tinyurl.com/zyeuefzu.

Nearly a year later, World Health Organization officials admitted that the vaccines did “not fully prevent transmission.”²⁵ Indeed, various studies have seriously undermined the narrative that vaccination prevents the transmission of COVID-19, especially the delta and omicron variants.²⁶ This calls into question the accuracy of pharmaceutical manufacturers’ representations that their vaccines would stop transmission, develop herd immunity, and help end the pandemic.

20. For children ages 5 through 17, Moderna states that the known risks and possible severe complications of COVID-19

Eyre, et al., *The impact of SARS-CoV-2 vaccination on Alpha & Delta variant transmission*, *medRxiv* (Oct. 15, 2021), tinyurl.com/34tr2wkp.

outweigh the potential risks of “having a rare, adverse reaction to vaccination.”²⁷ Bourla tweeted that severe COVID-19 was “rare in children” while urging that “widespread vaccination is a critical tool to stop transmission.”²⁸ But just three months later, Bourla said the Delta variant posed a “substantial threat” to children.²⁹

21. On the contrary, the Florida Department of Health recognized reduced COVID-19 vaccine efficacy in children and a limited risk of severe illness from COVID-19 in healthy children.³⁰ The Florida Department of Health issued guidance recommending that healthy children may not benefit from the COVID-19 vaccine and recognizing that the risk of myocarditis, particularly for adolescents 16 to 17 years of age, may outweigh the benefit of COVID-19 vaccination.³¹

22. In April 2021, increased cases of myocarditis and pericarditis were reported in individuals in the United States after receiving the

Moderna stated that myocarditis and pericarditis are “typically mild cases and individuals tend to recover within a short time.”³⁶

23. The Florida Department of Health conducted its own analysis through a self-controlled case series to study mortality risk following mRNA COVID-19 vaccination and found an increase in the relative incidence of cardiac-related deaths among males 18-39 years old within 28 days following mRNA vaccination.³⁷

24. Reports from other countries also indicate that there is a connection between COVID-19 vaccines and cardiovascular events, even death. French and Canadian studies recognize an increase in rates of myocarditis or pericarditis following receipt of COVID-19 mRNA vaccines.³⁸ A recent Swiss report recognized that only serious

industry with respect to the safety and risks of their COVID-19 vaccines have been true.

25. Florida law prohibits fraudulent practices, including the dissemination of false or misleading advertisements of a drug and the use of any representation or suggestion in any advertisement relating to a drug that an application of a drug is effective when it is not. § 499.0051(11), Fla. Stat. The pharmaceutical industry has a notorious history of misleading the public for financial gain.⁴² Questions have been raised regarding the veracity of the representations made by the pharmaceutical manufacturers of COVID-19 vaccines, particularly with respect to transmission,

⁴² *E.g.*, Press Release, Justice Department Announces Largest Health Care Fraud Settlement in History, Pfizer to Pay \$2.3 Billion for Fraudulent Marketing, U.S. Dept. of Justice (Sept. 2, 2009), tinyurl.com/4bnzhp2e; Press Release, Attorney General Moody Secures Relief for Opioid Crisis, Off. of the Fla. Att’y Gen. (Jan. 18, 2022), tinyurl.com/yd2w2n4y; Press Release, Pfizer’s CEO rapped by regulator for making ‘misleading’ statements about children’s vaccines, The Telegraph (Nov. 26, 2022), tinyurl.com/4hh42hsu; Press Release, GlaxoSmithKline to Plead Guilty and pay \$3 Billion to Resolve Fraud Allegations and Failure to Report Safety Data, Largest Health Care Fraud Settlement in U.S. History, U.S. Dept. of Justice (July 2, 2012), tinyurl.com/26687nbe; Press Release, U.S. Pharmaceutical Company Merck Sharp & Dohme to Pay Nearly One Billion Dollars Over Promotion of Vioxx®, Merck to Pay \$950 Million for Illegal Marketing, U.S. Dept. of Justice (Nov. 22, 2011), tinyurl.com/53x83rhe.

prevention, efficacy, and safety. An investigation is warranted to determine whether the pharmaceutical industry has engaged in fraudulent practices. The people of Florida deserve to know the truth.

Nature and Scope of the Investigation

26. In light of the foregoing information, Petitioner has determined that there are good and sufficient reasons to deem it to be in the public interest to impanel a statewide grand jury to investigate criminal or wrongful activity in Florida relating to the development, promotion, and distribution of vaccines purported to prevent COVID-19 infection, symptoms, and transmission.

27. Specifically, such investigation should consider any crime or wrong listed or described in section 905.34 that relates to the following:

(a) Individuals, persons, and entities, including, but not limited to, pharmaceutical manufacturers (and their executive officers) and other medical associations or organizations involved in the design, development, clinical testing or investigation, manufacture, marketing, representation, advertising, promotion, labeling, distribution, formulation, packing, sale, purchase,

donation, dispensing, prescribing, administration, or use of vaccines purported to prevent COVID-19 infection, symptoms, and transmission;

(b) other criminal activity or wrongdoing that the statewide grand jury uncovers during the course of the investigation if it determines that pursuing the criminal activity or wrongdoing is in the best interests of the investigation.

28. A statewide grand jury is an appropriate vehicle to examine these matters, identify any deficiencies in current laws and enforcement methods, and recommend revised or additional laws and enforcement methods.

29. Pursuant to sections 905.33 and 905.34, the jurisdiction of the statewide grand jury will extend throughout the state to investigate crimes, return indictments, make presentments or direct issuance of reports, and otherwise perform all functions of a statewide grand jury with regard to any offense enumerated in section 905.34, including but not limited to:

(a) Any crime involving, or resulting in, fraud or deceit upon any person [e.g., Chapter 817 (false pretenses and frauds, generally)];

(b) Chapter 499 (crimes under Part I of the Florida Drug and Cosmetic Act);

(c) Chapter 895 (violations of the provisions of the Florida Racketeer Influenced and Corrupt Organization Act (RICO), including offenses listed under section 895.02); and

(d) Any attempt, solicitation, or conspiracy to commit any violation of the crimes specifically enumerated above.

30. The Florida Department of Law Enforcement will serve as the primary investigator, though the statewide grand jury may seek the assistance of any law enforcement entity or agency in Florida.

31. The investigation is not limited to any region of the state. Petitioner requests, however, that in the interest of convenience of prospective grand jury witnesses, law enforcement officers, and others, a region of the state should be designated as the base operating area. *See* § 905.37(2).

32. Prospective jurors should be drawn from that region.

33. Petitioner respectfully requests that this Court designate the Fifth, Sixth, Tenth, Twelfth, and Thirteenth Judicial Circuits as the base operating area in which the statewide grand jury should be

impaneled because of the region's central location within the state and its accessibility and convenience for grand jury participants.

34. Petitioner requests that the Chief Justice designate a circuit judge in one of the aforementioned judicial circuits to preside over the statewide grand jury. *See* § 905.33(2), Fla. Stat.

35. The statewide grand jury should be impaneled for a term of 12 calendar months, subject to an extension of up to six additional months as provided by law. *See* § 905.33(1), Fla. Stat.

For the foregoing reasons, Petitioner respectfully requests that this Court order that a statewide grand jury be impaneled.

Dated this 13th day of December, 2022.

Dear Attorney General Moody / General Counsel Newman :

Background Discussion

Shipper SPODs confirm that Reference 1 was received by all addressees. A duplicate, with the addition of four SPODs, is *now* forwarded to Mr. Newman: SPODs for Governor DeSantis, Surgeon General Dr. Ladapo, Attorney General Ms. Moody, and Reference 3 related individual Governor Pete Ricketts the former Chairman of the Republican Governors Association (RGA). SPODs are also on-file for the following Republican governors:

Governor Kristi Noem
State of South Dakota

Governor Michael Parson
State of Missouri

Governor Greg Abbott
State of Texas

Governor Greg Gianforte
State of Montana

Reference 1 (Tab 5) included my 5 October 2022 letter to Mr. Anthony Fauci, Ms. Martha Pollack (Cornell), Mr. Donald Trump, and Mr. Albert Bourla. I assert that it is not mere speculation that Reference 1 resulted in Reference 3; Project Veritas coverage of the secret/unannounced RGA event shown below (screenshots) :

Background Discussion *continued*

Background Discussion *continued*

As of this letter I have had **FOUR** person-to-person telephone calls into the following contact:

Republican Governors Association
1747 Pennsylvania Avenue NW
Suite 250
Washington, DC 20006
202-662-4140

On all calls I have politely requested the following **basic** information:

1. Who called the “private event” meeting of 9 February 2023; was it at the request of Pfizer? The Republican Governors Association (RGA), or both? *
2. What was the invitation mechanism? Email? Telephone? Other written invitations?
3. What was the original agenda, and/or were additional items discussed as the meeting proceeded?
4. Who from Pfizer, in addition to those depicted on Page 2 above were in-attendance? Who in representation of the RGA were in-attendance, and which if-any Republican governors were also in-attendance?
5. Were meeting minutes produced that documented the above? If yes, why has such not been shared with the taxpayer? The public at-large?
6. What documents were shared between Pfizer and the RGA?
7. Are there any follow-up Pfizer/RGA meetings scheduled? If yes, when and where; and in what format? In person, by teleconference?

As of this letter **the RGA refuses to answer** any of these questions; all likely germane to the instant Subject.

* That “private event” descriptor was used by the Conrad Hotel Assistant Director of Catering and Events:
<https://rumble.com/v29yc7q-pfizer-albert-bourla-secret-meeting-with-republican-governors-association-r.html>

Background Discussion continued

On Page 2 of Reference 2 (my letter of 3 January 2023 to Governor DeSantis, and Ms. Susan Neely, President of the American Council of Life Insurers), I suggested four preliminary prosecution witnesses to the Subject Grand Jury, including **Mr. Edward Dowd**, founder of Phinance Technologies. On 22 February 2023, Mr. Dowd was featured on Fox News Tucker Carlson Today (TCT):

Mr. Dowd discussed his book ***“Cause Unknown”*** (Please note his astute use of quotation marks). The preamble to his book:

“ What is killing healthy young Americans?

2020 saw a spike in deaths in America, smaller than you might imagine during a pandemic, some of which could be attributed to COVID and to initial treatment strategies that were not effective.

*But then, in 2021, the stats people expected went off the rails. The CEO of the **OneAmerica insurance company** publicly disclosed that during the third and fourth quarters of 2021, death in people of working age (18–64) was 40 percent higher than it was before the pandemic. Significantly, the majority of the deaths were not attributed to COVID.*

A 40 percent increase in deaths is literally earth-shaking. Even a 10 percent increase in excess deaths would have been a 1-in-200-year event. But this was 40 percent! ”

Background DiscussionConclusion

One day after Reference 4, Reference 5 was recorded by the Idaho House of Representatives:

LEGISLATURE OF THE STATE OF IDAHO
Sixty-seventh Legislature First Regular Session - 2023

IN THE HOUSE OF REPRESENTATIVES

HOUSE BILL NO. 154

BY HEALTH AND WELFARE COMMITTEE

AN ACT

RELATING TO CRIMES; AMENDING CHAPTER 9, TITLE 18, IDAHO CODE, BY THE ADDITION OF A NEW SECTION 18-926, IDAHO CODE, TO PROVIDE THAT PROVIDING OR ADMINISTERING AN MRNA VACCINE IS A MISDEMEANOR; AND DECLARING AN EMERGENCY AND PROVIDING AN EFFECTIVE DATE.

Be It Enacted by the Legislature of the State of Idaho:

SECTION 1. That Chapter 9, Title 18, Idaho Code, be, and the same is hereby amended by the addition thereto of a NEW SECTION, to be known and designated as Section 18-926, Idaho Code, and to read as follows:

18-926. ADMINISTERING AN MRNA VACCINE. (1) Notwithstanding any other provision of law, a person may not provide or administer a vaccine developed using messenger ribonucleic acid technology for use in an individual or any other mammal in this state.

(2) A person who violates this section is guilty of a misdemeanor.

SECTION 2. An emergency existing therefor, which emergency is hereby declared to exist, this act shall be in full force and effect on and after July 1, 2023.

Information requests regarding Reference 5 should be directed to its co-sponsors:

Representative Judy Boyle
208-332-1064

Senator Tammy Nichols
208-332-1000

INTERMISSION *Page i of ii*

It is reasonable to suggest that the Subject Grand Jury should inquire regarding the criminal conspiratorial participations in the fraud of "COVID-19" by Big Academia. The most notorious would be the Ivy League, especially those that boast of both law schools and medical colleges of global level recognition and esteem. **The most egregious of that group? The current administration of my alma mater, Cornell University.** I am not discounting the alma mater of Governor DeSantis (Harvard), hardly! But the current administrators of Cornell are directly connectable to, and have openly endorsed, and coddled, and promoted **three of the most notorious COVID-19 criminals**:

Mr. Anthony Fauci: Cornell University alumnus, Weill-Cornell Medical School, Class of 1966. Primary 'errand boy' for the globalist plots of decades, including the schemes *ranging from* COVID-19 face masks, lockdowns and needle mandates, *to* the unconstitutional provisions buried in the PREP Act, not the least of which is **Liability Immunity**, etc.

Mr. Bill Gates: Pseudo-philanthropist funder of Gates Hall, a masquerade for study of 'Computer and Information Sciences.' In truth, his primary motivation being solicitation of (unstated) Cornell support for his primary investment play: Global population birth rate control through mandatory vaccinations, especially in the so-called Third World.

Bill Gates: The Best Investment I've Ever Made

Global health groups that buy and distribute medicines are a sure bet for saving lives, but their government funding is now in danger, and even the biggest philanthropies can't fill the gap

By [Bill Gates](#)

Jan. 16, 2019 7:01 pm ET

INTERMISSION ***Page ii of ii***

Mr. Albert Bourla: Original member **with Ms. Martha Pollack (Cornell)** on the closed-door mRNA promotional group, New York Forward ReOpening Advisory Board. NYFRAB enforced “advice” on mandatory use of face masks, social distancing, lockdowns, etc. as a scheme by which “*return to normal*” could only be achieved if mandatory mRNA injections were implemented, which later singled out Pfizer needle (**See attached secret letter from ex-Governor Andrew Cuomo to Mr. Albert Bourla**). NYFRAB later promoted blatant lie that mRNA needle received “full approval” from the FDA.

Ms. Martha Pollack seen coddling a top Pfizer marketing executive on the campus of Cornell University: **There is zero chance that** Pollack will invite Dr. Peter McCullough, Dr. Robert Malone, Dr. Vladimir Zelenko, Dr. Pierre Kory, Dr. Andrew Kaufman, Dr. Harvey Risch, Dr. Michael Yeadon, Dr. Bryan Ardis, Dr. John Littell, Dr. Gregory Hall, Dr. David Martin, Dr. Jane Ruby, **or Dr. Joseph Ladapo** . . . to name just a few.

Per the Petition, the role of **Florida** academia in “*misleading the public*” should be pursued by your Grand Jury. It was Minnesota Big Academia that **directly** caused the Subject; which we now examine.

**Subject : Mrs. Jummai Nache, Other Similar Incident (OSI) Testimony :
Order Directing Impanelment of Statewide Grand Jury,
Case SC22-1710 – Grand Jury #22**

This Subject is presented to you *with permission*. I have had many conversations with Mr. Philip Nache and Mrs. Jummai Nache wherein they jointly encouraged this formal written proposal.

Other Similar Incident (OSI) Evidence Admission Criteria (State of Florida)

Guidance on this topic is somewhat sparse in the State of Florida. Despite being an out-of-state resident, the guidance I have gleaned strongly appears to support admission, to the Grand Jury, of the facts surrounding the destruction of the physical well-being of Mrs. Jummai Nache, which occurred as a direct result of the two-fold mRNA injections, coerced upon her by her former employer, the University of Minnesota.

Regarding the Petition filed by Governor DeSantis and General Council Newman on 13 December 2022, the Nache case facts comport with and reinforce all Petition theory; indeed with each and every paragraph, especially wherein such speaks to the CDC/FDA/Pfizer misinformation and disinformation that criminally/purposely obviated **complete and true informed consent**.

It took six months of haggling to get the University of Minnesota to release the medical report on Jummai; now over 1300 pages. As a window on their early knowledge of mRNA induced injuries, caused by University employment “vaccination” mandates, we sample Page 183 of that report (screenshot):

Assessment:

Jummai P Nache is a 50 year old female patient who is following up after a prolonged admission and continued rehab after MIS-A. Her clinical course has left her with life-changing physical disfigurement which is almost certainly going to need amputation.

Most of our visit was spent again discussing the potential role of the vaccine in this process. Dr. Fontana shared the letter from the CDC stating that this was MIS-A without clear involvement from the vaccine, though it can't (and likely never will be) excluded as contributing to some extent. Since the last visit, and separate from the laboratory evidence discussed with the CDC, I did have the PF4 antibody testing done on a blood sample saved from around the same day as her arterial thrombotic events. This testing was negative. Thrombotic Thrombocytopenic Syndrome (TTS, previously termed VITT as mentioned in my previous note) is the syndrome linked to the infrequent CSVT and other thrombotic events linked to Johnson and Johnson vaccines. While we do not have pathognomonic tests for this (or most other disorders), the PF-4 antibody testing is quite sensitive, so the absence of it is reassuring against that diagnosis. Greinacher et al. **Thrombotic Thrombocytopenia after ChAdOx1 nCov-19 Vaccination**, *NEJM* April 2021 <https://www.nejm.org/doi/full/10.1056/NEJMoa2104840>). The onset here was also a bit early, based on discussions I had with an expert on the topic at another institution in reviewing this case.

We spent 45 minutes reviewing what constitutes MIS-A versus other similar inflammatory or infectious states, how the vaccine could have hypothetically amplified an MIS-A that might have occurred anyway, but since we do not know why some are susceptible to MIS and not others, we cannot even say that for sure. My feeling is that they are still in the coping phases of this, and more will come with the amputations needed, so I am just trying to support Jummai and Phillip through this with as much evidence-based background to Jummai's events as I can. I will keep working with

**Subject : Mrs. Jummai Nache, Other Similar Incident (OSI) Testimony :
Order Directing Impanelment of Statewide Grand Jury,
Case SC22-1710 – Grand Jury #22 Conclusion**

Other Similar Incident (OSI) : Further Notes Regarding Evidence/Testimony Admissibility

The instant Subject is not *ad hocism*. The Jummai Nache matter was openly discussed with Florida officials repeatedly. Some communications *predate* the 13 December 2022 Petition *by over-a-year*. In support of admissibility, and rebuttal to claim of *ad hocism*, SPODs for the following communications are on-file :

- a. My first letter to Dr. Joseph Ladapo of 23 September 2021, congratulating his appointment as Florida Surgeon General, included a copy of my 21 September 2021 letter to New York District Judge Dale Hurd which focused on the Jummai Nache matter (Cover and SPOD attached).
- b. My second letter to Dr. Joseph Ladapo of 27 October 2021, openly copied to Governor DeSantis, focused on the Jummai Nache matter.
- c. My third letter to Governor DeSantis, Dr. Ladapo, Attorney General Moody of 13 December 2022. Reference 1 to this letter focused on the voiding of liability immunity; contextualized in-part by the Jummai Nache matter. Under Tab 1 a complete photographic progression history was provided.

Communications that *followed* the granting of the Grand Jury Petition on 22 December 2022:

- d. My fourth letter was to Governor DeSantis and Ms. Neely of 3 January 2023, which discussed under cover to Governor Bill Lee (R-TN) the mRNA injuries of Ms. Claire Bridges and Mrs. Jummai Nache; and the mRNA-tainted blood infusion “blood clot” death of Baby Alex.
- e. My fifth letter was to Governor DeSantis and Ms. Neely of 13 January 2023, which referenced earlier communications which discuss the Jummai Nache matter.

Contact information for Mrs. Jummai Nache and Rev. Philip Nache (forwarded with permission):

Hope of Nations Fellowship Church, 2600 W 82nd St, Bloomington, MN 55431, 502-379-5429.

They would be most grateful for the opportunity to testify under oath at Florida Grand Jury #22.

Respectfully yours,

Paul V. Sheridan

Attachment 1 Content : Two Pages

**Secret Letter from ex-Governor Andrew Cuomo to Pfizer CEO Mr. Albert Bourla
of 18 January 2021, two days prior-to installation of Joe Biden,**

(2020 presidential election meddling by Bourla extensively documented) :

Pfizer is a New York company – something I am greatly proud of. The company's decision to opt out of Operation Warp Speed, which the Biden administration plans to overhaul, puts it in a unique situation that could help us save lives right here in New York. I am happy to discuss this matter further with you.

Sincerely,

Governor Andrew M. Cuomo

STATE OF NEW YORK

January 18, 2021

Albert Bourla, DVM, Ph.D.
Chairman and Chief Executive Officer, Pfizer
235 East 42nd Street
New York, NY 10017

Dear Dr. Bourla:

On behalf of all New Yorkers, I want to thank you and the teams at Pfizer and BioNTech for your hard work to develop a safe, effective vaccine for COVID-19. The last ten months have been exceptionally dark – but your efforts have provided a bright light at the end of the tunnel and hope for a better future. It is abundantly clear that these vaccines are the weapons that will finally win the war against COVID-19. But with hospitalizations and deaths increasing across the country this winter, we are in a footrace with the virus, and we will lose unless we dramatically increase the number of doses getting to New Yorkers. After myself and seven other governors called on the Trump Administration to release more doses, HHS Secretary Alex Azar said that relief was on the way. To date, however, the federal government has not acted on that promise – in fact, New York will receive just 250,000 doses this week, 50,000 fewer than the week prior.

Because you are not bound by commitments that Moderna made as part of Operation Warp Speed, I am requesting that the State of New York be permitted to directly purchase doses from you. The distribution of any doses obtained directly from Pfizer will follow the rigorous guidance the State has established, while enabling us to fill the dosage gap created this week by the outgoing federal administration. All of this will further our goal to vaccinate 70 to 90 percent of New Yorkers as soon as possible and reach herd immunity.

You no doubt understand the challenges New York and other states face. Shifting guidance from the Centers for Disease Control and Prevention drove the number of New Yorkers eligible and prioritized for the vaccine from 5 million to 7 million practically overnight. The federal administration essentially opened up a floodgate while cutting our supply – leading to confusion, frustration, and dashed hopes.

Pfizer is a New York company – something I am greatly proud of. The company's decision to opt out of Operation Warp Speed, which the Biden administration plans to overhaul, puts it in a unique situation that could help us save lives right here in New York. I am happy to discuss this matter further with you.

Sincerely,

A handwritten signature in black ink, appearing to read "Andrew M. Cuomo". The signature is fluid and cursive, with the first name "Andrew" being more prominent and the last name "Cuomo" following in a similar style.

Governor Andrew M. Cuomo

Mrs. Jummai Nache and her devoted husband Philip; learning how to walk stairs on prosthetic limbs. Amputation of her limbs **caused by mRNA injection mandated by her former employer**, the University of Minnesota (UMinn). A non-smoker, a non-drinker, a model of health **prior** to Pfizer needle; amputations in pictorial review above caused by mRNA-induced venous and arterial thromboembolism; not merely foreseeable but a known mRNA danger which had been discussed in-detail at the secret FDA meeting of 22 October 2020 (See cover letter Page 8-of-13).
