

Hello Councilwoman Ariola:

Enclosed you will find a hard copy of the exact materials now-received in hard copy by Dean Steven Garfin at the University of California – San Diego School of Medicine....**the alma mater of Mr. Jay Varma.** \*

In the binder portion of the enclosure you will find Tab 4...my letter to Pfizer internal legal counsel, Cornell Law School Graduate Mr. Doug Lankler. Please read carefully **Paragraph 5.5** from the very recently judge-ordered release of the “confidential” supply contract with the Republic of South Africa....a nation that did **not** offer Pfizer LIABILITY IMMUNITY.

Attached directly to this note is my letter of 28 March 2022 to Mr. Anthony Fauci and Cornell University president Ms. Martha Pollack (recently, inexplicably resigned!). To put Paragraph 5.5 in perspective, please peruse **pages 11 thru 25** of my 28 March 2022 letter. Paragraph 5.5 is buried in a document that Pfizer (i.e. Bourla / Lankler) was confident would remain hidden in-perpetuity.

In other words, where they have LIABILITY IMMUNITY (USA) they boast about “95% effective,” and “no long term adverse events.” They (and Fauci, and Varma, and Pollack, and Biden, et al.) promoted that verbiage in everything from press releases to closed-door FDA EUA approval meetings (10 December 2020).

But where they were not shielded by national level LIABILITY IMMUNITY they effectively **wrote-it-in** to their secret contracts. There are now available MANY samples of the latter . . .

. . . to put **THAT** in perspective, please now go to Tab 1 of the enclosed binder. Mrs. Nache was **threatened by Governor Tim Walz** with loss of employment if she did not submit to his “vaccine” mandate. **Please contrast that outcome with that of Captain Brendan Fogarty** . . . please share this material with him, et al.

Please do not hesitate to contact me at any time,
