

Dr. Navarro :

(23 October 2025)

I watched with concern your recent interview with Ms. Bartiromo regarding a portion of the treasonous activity of the Biden Administration; that portion code named Artic Frost:

However, long before the weaponization of the DOJ/FBI, the COVID-19 Crime Syndicate had weaponized the health/medical industry. The 2016 election of President Trump was a postponement of the that weaponization . . . if you remember, a disgruntled Mr. Anthony Fauci immediately announcing (January 2017) a “surprise outbreak.” The events of late 2019 amounted to a “now-or-never” scenario for the COVID-19 Crime Syndicate:

Regarding those criminals, my enclosed letter to President Trump of 30 September 2025 reiterates what you declared with Maria ,

“If we don’t hold them accountable, Maria, they will do it again.”

Indeed! One of the most horrific victimizations of the COVID-19 Crime Syndicate is Mrs. Jummai Nache . . . please, please review pages 26 thru 38. On Page 25 of 43 we make a request upon the President for a meeting with the Nache family. Can you help us with that very important event?

Respectfully yours,

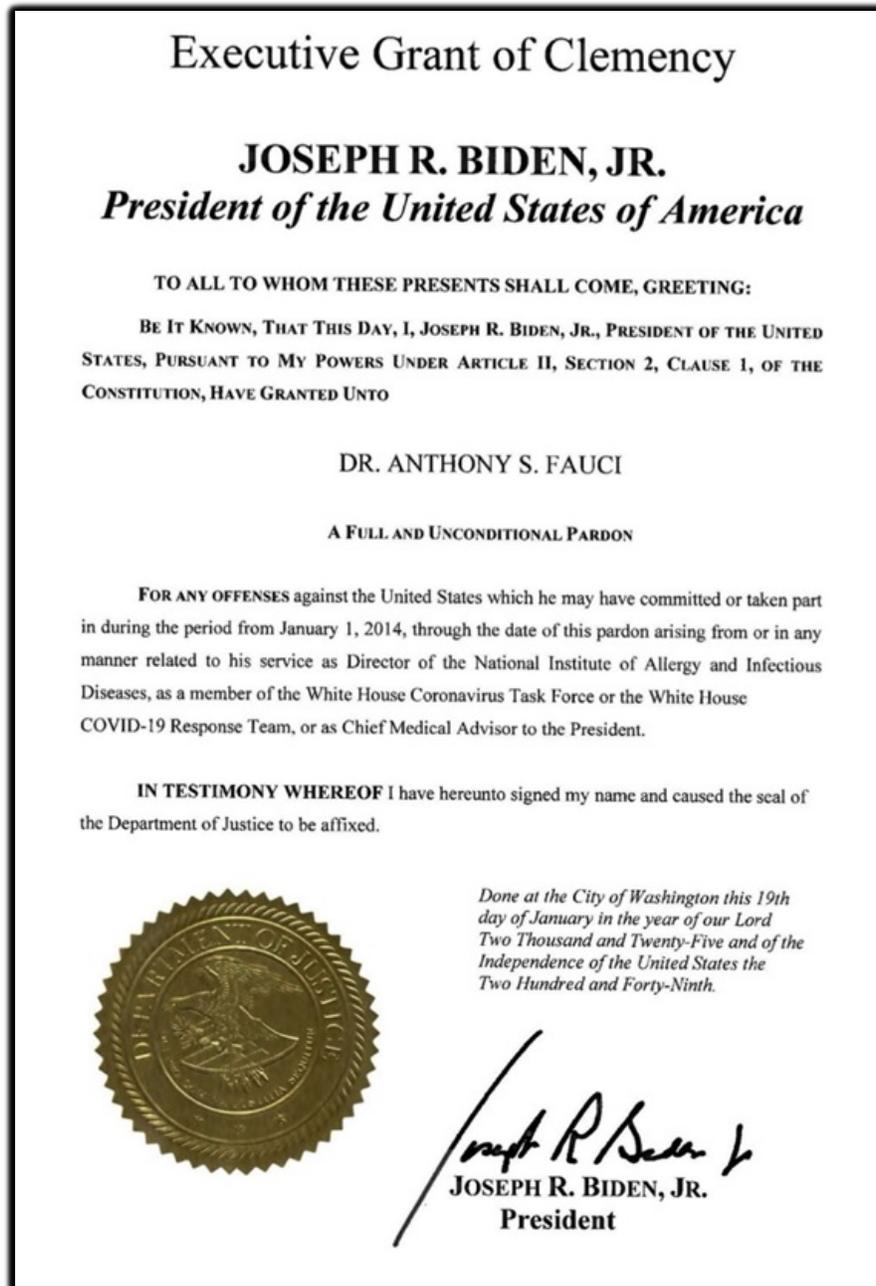

Paul V. Sheridan

P.S. Given your previous book, you might find my Tab 3 discussion (and the Jim Jordan letter to Pfizer CEO Albert Bourla) on **Year 2020 election rigging** of interest. You might also note Tab 5. President Trump has already received his copy of **The Pfizer Papers.**

President Trump Deserves the Nobel Peace Prize for Ending Conflicts *Contingent Upon Exposing of the COVID-19 Crime Syndicate*

While instigating conflicts and the exact opposite tenor (versus your efforts), the COVID-19 Crime Syndicate issued **an additional type of immunity; CRIMINAL IMMUNITY.**

A document that affirms the depth of the COVID-19 crimes, the AutoPen signed **Fauci Pardon** :

On 17 September 2025, Senator Rand Paul (R-KY) : ***“They’ve interviewed the person that was running the AutoPen. He says he never met the president.”***
