There were a couple questions asked during our conversation that I want to follow up on.

Question: Were Congresspeople required to get vaccinated for COVID-19?

Answer: No, there was no vaccine mandate for Members of Congress.

As introduced on Pages 20 – 21 below, posed to you at the *Community Conversation* on 18 February 2025, my second question remains unanswered :

“Under the Emergency Use Authorization issued for Pfizer, they cannot be sued for injury or death caused by their so-called vaccine because they are shielded by liability immunity. The PREP Act provides for revocation of liability immunity if evidence proves that Pfizer acted with ‘willful misconduct.’ If you were presented with evidence of willful misconduct during COVID-19, would you support the retroactive revocation of their liability immunity protection?”

**Subject : Retroactive Revocation of LIABILITY IMMUNITY for COVID-19 “vaccine”
(Granted by Trump Administration to BigPharma on 11 December 2020)**

Dear Congresswoman Tlaib :

After billions had already been cajoled and coerced and poisoned, BigPharma finally admitted that their enforced sole remedy, mandated for the SARS-CoV-2 diseases, was **not** a vaccine, but was in-truth a technology involving **“gene therapy.”**

In September 2021 BigPharma executive Dr. Stefan Oelrich (Bayer Pharmaceuticals) explained with gala, what he characterized as, **“the leap”** :

*“To tackle issues beyond COVID-19, we’ve seen vaccines as the perfect example. We are taking **the leap** in selling gene therapy. Ultimately the mRNA vaccines are an example for that. I always like to say if we had taken a survey two years ago, in the public, ‘Would you be willing to take gene or cell therapy; and get it injected into your body?’ We would have probably had **a ninety-five percent refusal rate!**”*

For those who had interacted with Mr. Anthony Fauci for decades, that admission was no surprise. It confirmed the BigPharma celebration of an unprecedented profitability, resulting from an experimental modRNA technology; a concoction that had never been used on humans :

Thanks to the ignorance and servility of Mr. Trump * . . . and the duplicity and complicity of the Senate and Congress . . . Pfizer and the “vaccinators” of the COVID-19 modRNA poisons enjoy zero accountability, and *still* face no legal risk whatsoever !

*** *Operation Warp Speed* included a crucial pre-planned ruse : LIABILITY IMMUNITY.**

On Page 20 below I introduce *“the duplicity and complicity of the Senate and Congress.”*

Twenty-three years ago, in 2003, an application for patent of the modRNA technology was filed with the United States Patent Office (USPO). Upon review, the patent was rejected as follows :

Application/Control Number: 09/869,003

Page 5

Art Unit: 1648

These arguments are persuasive to the extent that an antigenic peptide stimulates an immune response that may produce antibodies that bind to a specific peptide or protein but is not persuasive in regards to a vaccine. The immune response produced by a vaccine must be more than merely some immune response but must be protective. As noted in the previous Office Action, the art recognizes the term “vaccine” to be a compound which prevents infection. Applicant has not demonstrated that the instantly claimed vaccine meets even the lower standard set forth in the specification, let alone the standard art definition, for being operative in this regards. Therefore, claims 5, 7, and 9 are not operative as an anti-HIV-1 vaccine and therefore lack patentable utility.

So . . . modRNA technology is decades-old . . . what BigPharma admitted in 2021 was not a vaccine, but was **“the leap.”** Note from above, the key Year-2003 USPO rejection criteria :

“Applicant has not demonstrated that the instantly claimed vaccine meets even the lower standard set forth in the specification, let alone the standard art definition.”

Not merely coy or clever, the Applicant was *fully aware* that the modRNA technology, that he labeled “vaccine” was no such thing. **In plain English, the Applicant was/is a LIAR.**

The identity of the LIAR? Page 3 is *emblematic* of the stature and status of the LIAR . . .

Cornell University is proud of Mr. Anthony Fauci . . . a criminal they graduated, routinely promote, and continue to coddle. In letters written on COVID-19, I have stated :

**“ To have the world, they had to have the United States.
To have the United States, they had to have Cornell.” ¹**

After the EUA was issued for the Pfizer modRNA, public concern grew about an *alleged* vaccine that was created *allegedly* so speedily . . . and whether it was truly “95% safe & effective.”

Attempting to quash concern, Professor Cynthia Leifer fulfilled her campus role as a modRNA sales rep. In April 2021, she hurriedly hosted modRNA “vaccine” infomercials :

Cornell Experts Answer Questions About the COVID-19 Vaccine

“What you need to know is that scientists have been working on these coronavirus vaccines for decades. We learned a lot about coronaviruses from our experience with SARS. And so we used that information to make these vaccines as well.”

In lockstep with the criminal on Pages 2/3 above, Ms. Leifer is a LIAR by-omission. She is fully aware that the “vaccines for decades” is no such thing. She is **directly** knowledgeable of the **“standard art definition,”** versus the modRNA truth that BigPharma admitted-to shortly after her campus charlatanisms (Review Dr. Oelrich **“gene therapy”** quote, Page 1 above). ²

¹ (A) Not an exaggeration; Bill & Melinda Gates Hall, funded on January 20 2006 by close Jeffrey Epstein associate Mr. Bill Gates; it is a facility located on the campus of my alma mater, Cornell University

(B) The criminal discussed of Pages 2 and 3 above is a graduate of Cornell University.

(C) Pfizer lawyer (who celebrates LIABILITY IMMUNITY), Mr. Douglas Lankler is a Cornell Law graduate.

² There was nothing speedy about *Operation Warp Speed*; only the duped or vested interests say otherwise.

Pfizer CEO Mr. Albert Bourla celebrated on Monday, 11 December 2020 : That morning his FDA subordinates issued an EUA, conspiring with the **LIE**, buried in *Operation Warp Speed*, that modRNA met the “*standard art definition*.”³ But to cash-in, everyone had to be duped, the experimental modRNA Pfizer contraption must be promoted as a “vaccine.”⁴

Jerusalem - June 29 2022**

³ See Page 2 above

⁴ Please review Dr. Oelrich “*ninety-five percent refusal rate*” quote, Page 1 above

I am enclosing a duplicate of the materials received at the White House on 30 September 2025. Page 15 of the cover letter reviews the fumbling & bumbling interview on 18 February 2025 of Pfizer CEO Albert Bourla ; on a subject BigPharma viciously clings to : **LIABILITY IMMUNITY**.

Mr. Bourla was asked a very simple question, **one that he refused to answer** :

CNBC Question : ‘Vaccine manufacturers like yourself largely shielded from liability; if the product is safe & effective, what is the need to continue to shield, to have these liability shields, and what happens if those shields are changed or go-away completely?’

Bourla non-answer : If the product is not safe & effective we never get **approval** from FDA or from the other health authorities. They are very strict when they are approving products, particularly for vaccines, because exactly it’s given to healthy people. However in the system that litigations can flourish, anyone can create demands that uh, the accident in the car happened because of the vaccine. And uh with a jury, it’s going to be, it may be a flip of the coin. And this is I think why that Congress, it was not an administration, had passed this legislation. That is protecting those that they have **approval** from the FDA from certain liabilities. <sic>

“Approval”?! Bourla is gleefully aware of the key PREP Act distinctions; approved versus merely authorized, and that the latter provides **LIABILITY IMMUNITY**. As long as his HHS lackeys continue to assert a COVID emergency, the Pfizer modRNA contraption is shielded from litigation.

Bourla is aware that *Operation Warp Speed* avoided a modRNA FDA-**approval** *per se*. Given their knowledge of severe side effects; Bourla, Fauci and COVID-19 co-criminals had pre-planned that modRNA would remain merely *authorized*. Full approval would vacate their central scheme of COVID-19 : **LIABILITY IMMUNITY**.

Bourla is aware that the FDA granted an Emergency Use **Authorization (EUA)**; not approval. Bourla is aware that his cowering behind **LIABILITY IMMUNITY** remains intact as long as the modRNA **“Ninety-five percent refusal rate”** remains obscured. **Pages 1 thru 3 above ?!**

After the Bourla inveracity above, Senator Ron Johnson called a hearing of Homeland Security & Governmental Affairs : ***Voices of the Vaccine Injured***. Inside that 15 July 2025 hearing, Senator Richard Blumenthal *grandstanded* :

“I don’t think that any industry should be immune from legal responsibility.”

Grandstanded? *Immediately* after the above bloviating, outside of the hearing, Blumenthal backpedaled in behalf of BigPharma ; declaring at a pre-planned media charade :

“You rarely hear a United States senator saying, ‘I hope nothing comes of this hearing, I hope people don’t pay attention.’ Because it isn’t deserving of credibility and attention.”

On Page 25 of the cover letter received at the White House on 30 September 2025, I made the following **Executive Order request upon Mr. Trump** :

“Please issue an Executive Order that revokes the LIABILITY IMMUNITY that was granted for the modRNA technology (COVID-19 “vaccine”) ; retroactive to the FDA EUA date of 11 December 2020.”

I have confirmed receipt of those materials at the White House. But after nine months, President Trump and White House staff have ignored my request. ⁵

⁵ My 30 September 2025 letter to President Trump is on the enclosed USB; Folder I (eye) and Letter #72.

LIABILITY IMMUNITY : Enforcement of the Vaccine-only Scheme

The enclosed USB thumb drive contains the file : **PAULVSHERIDAN-COVID-19_LETTERS-ARCHIVE**
In 2020 I alleged :

“The COVID-19 ‘vaccine’ was not created in response to the SARS-CoV-2 virus, but the exact opposite.”

The best evidence of that reality comes directly from “*America’s Doctor*,” the modRNA criminal that President AutoPen coddled on Page 3 above.

COVID-19 involved a crucial coercion : **Enforcement of a vaccine-only scenario.** Alternative therapies and proponents; no matter how credible, were to be *viciously* attacked and destroyed.

On the USB, Letter #2 dated 21 July 2020, see Page 7 of 36 (screenshot) :

Your May 27 Politico interview occurred **a mere 5 days after the thelancet.com publication of Surgisphere’s “investigation.”**

In that globally distributed interview, contextualized-by and based-upon the Surgisphere “investigation,” you bold-facedly declared:

“I’m not so sure it (hydroxychloroquine), should be banned, but clearly the scientific data is really quite evident now about the lack of efficacy for it, and even the possibility that there could be, not could be but there is, you know, likelihood that under certain circumstances, might be rare but you’d see it, adverse events particularly with regard to cardiovascular and the arrhythmias that might be associated with it (hydroxychloroquine), I mean there was suspicion of that for a while, but as data comes in it becomes more clear. So I’m not so sure that you’d want to ban it, but certainly the data are clear right now.”

LIABILITY IMMUNITY : Enforcement of the Vaccine-only Scheme - *Con't*

The “*data are clear right now*” ? In his May 2020 *Politico* interview, Mr. Fauci is referring to research conducted by Surgisphere :

Their “research” was not merely flawed, it was falsified. So apparent was their fraud, that even the vested interests at *The Lancet* were forced to *fully* retract it. It was nothing more than an amateurish BigPharma-inspired, Fauci-lauded fraud.

Surgisphere was part of a vaccine-only scheme. The globalist COVID-19 play book included **pre-planned vaccine mandates . . . shielded by the ruse of LIABILITY-IMMUNITY.**

The ponerology of the Globalists was gleefully facilitated by BigPharma, and “*the leap.*” But Dr. Oelrich’s “*95% refusal*” quote conceded that modRNA would never be accepted. Therefore public acceptance needed to be made moot . . . enforced complicity would take its place :

“*The leap*” to modRNA required that a trusting public be frightened, cajoled, coerced, misled, threatened, and denied their basic right to true informed consent .

The EUA assured *thee operative* of this entire COVID-19 crime spree : **LIABILITY IMMUNITY.** Success of *Operation Warp Speed* involved a closed-circle conspiracy : (1) non-disclosure of “*the leap.*” And in-turn (2) “*the leap*” relied upon **LIABILITY IMMUNITY.**

This level of deception required a brutal media assault on the public and its elected officials :

“The COVID-19 ‘vaccine’ was *not* created in response to the SARS-CoV-2 virus, but the exact opposite.”

Fauci has confirmed my “exact opposite” allegation many times, even doing-so in 2020.⁶ Recent news has *greatly* increased the credibility of my Year-2020 allegation.⁷

⁶ See Page 10, and Page 17 below.

⁷ See Epoch News headline and ODNI press release Page 13, and “*entity of excitement*” quote Page 14 below.

LIABILITY IMMUNITY : Enforcement of the Vaccine-only Scheme - Con't

Returning to the Fauci interview with *Politico* . . . I emphasize that its original purpose was a rebuke of Mr. Trump and his non-vaccine COVID-19 therapy (Hydroxychloroquine). The original purpose of the *Politico* charade was not review of the “vaccine” status . . . however :

On the enclosed USB, Letter #2 dated 21 July 2020, I pose a critical question to Mr. Fauci :

21 July 2020

Dr. Anthony S. Fauci
Page 8 of 36

But then, without prompting by Politico, you began promoting vaccines:

“ When we first developed a vaccine, I said it would be about a year to a year-an-a-half, and that was in January.¹ So a year from January is December. I still think that we have a good chance, if all the things fall in the right place, that we might have a vaccine that would be deployable by the end of the year, by November or December.”

“When we first developed a vaccine . . . that was in January” ?!

I asked Mr. Fauci, “**January?!?”** Of 2020? How is that possible?

1. A “vaccine” for a virus that global health experts and Fauci labeled as a first-of-its-kind “**novel coronavirus**” ? So-named as Fauci and BigPharma forcefully promoted that next-to-nothing was known about it?
2. A “vaccine” for a virus they claimed had “no clear evidence” of origin, but most importantly did **NOT** come from a (Fauci-funded) lab? See Page 12 below.
3. A “vaccine” for an alleged outbreak that had not yet been declared a pandemic by the globalist-funded World Health Organization ?
4. A “vaccine” for a virus, that allegedly caused a global pandemic, that had not yet met the criteria for a Public Health Emergency . . . announced later by HHS Secretary Alex Azar?
5. A vaccine “**first developed . . . in January**” for a “**novel coronavirus**” that might cause a national pandemic, but in January 2020 had not yet met the criteria for a National Emergency . . . announced months later by Mr. Trump (13 March 2020) !?

These questions merely introduce the criminality of COVID-19. A key, but often overlooked participant is BigAcademia . . . **such as Cornell University and the Ivy League :**

My letter to the Ivy League presidents (enclosed USB, Letter #45 dated 27 October 2022) connects directly to my “**January 2020**” question . . . see next page, Page 11 below.

LIABILITY IMMUNITY : Enforcement of the Vaccine-only Scheme - Con't**“How is that possible ?!”**

On the enclosed USB, Letter #45 is dated 27 October 2022; a screenshot from Page 33 of 33 quotes EU Parliamentarian, Mr. Cristian-Vasile Terheş of Romania :

12 October 2022 Press Conference by EU Parliament

“The so-called ‘COVID-19 vaccine’ is not in response to the SARS-CoV-2 virus; but the exact opposite!”

“Everyone is avoiding these, I would say, logical questions. There is another issue. A year ago, I requested them (Pfizer) to submit some details and data to me, because I wanted to have an informed decision, I will say, when I voted in favor or against the ‘Green Certificate.’ And one of the questions I asked was, to send me all trials, the tests, the clinical trials that all these medical companies had done, either in animals or in humans before they requested the marketing authorization (for the COVID vaccine).”

So, in the case of Pfizer, here is something interesting. When they submitted the information and the clinical trials to Pfizer; here is all the tests, that they submitted along with their request.

They submitted a clinical trial that started on January 14, 2020!

*I asked yesterday, the representative of Pfizer, and she declined to answer, how is it possible, that we, the world, found out in December 2019 that there is a COVID or coronavirus, as it is called, in China, December of 2019? On January the 11th the Chinese government released the DNA data, or a segment of it, to the public and three days later, Pfizer already started the tests for the vaccine. **How is that possible?!** She did not answer.”*

Never reported by the US news media . . . the above reinforces the fact that *Operation Warp Speed* was a Trump Administration public relations fraud.

LIABILITY IMMUNITY : Enforcement of the Vaccine-only Scheme - Con't**“Fauci belongs in jail for that!”**

On the enclosed USB, Folder C, Letter #58 is dated 14 February 2024; my letter to Ambassador Mr. Xie Feng of the People's Republic of China. Page 3 of 16 :

“The China Virus”

EXHIBIT 1 contains my essay entitled :

Review of the COVID-19 Crime Syndicate

The COVID-19 “vaccine” was not created in response to the SARS-CoV-2 virus, but the exact opposite

EXHIBIT 1 discusses the 8/9 January 2024 hearing of the *House Select Committee on the Coronavirus Pandemic*. The Committee obtained the testimony of **Dr. Anthony Fauci**. Congresswoman Marjorie Greene summarized as follows :

“I think what has taken-me-back is the fact that Dr. Fauci fully believed in creating or enhancing viruses using the Gain of Function (GoF) research or that capability in order to create vaccines.

And this is a shocking thing to think about; the average person or most doctors practicing, you know, every day in their doctor’s offices, are blown away with the fact that he would create or enhance a virus in order to create a vaccine to fight it, because the risk is so high.

And what is shocking to me is that back in 2012 he actually wrote a paper about it, and wrote about a scenario that a pandemic could get released upon the world, and he spelled that out in his article. And in the article he says that it is worth the risk. But it’s not worth the risk, because millions of people died. Millions of people lost loved ones.

And actually this is more of an evil version of science, it is like a Dr. Frankenstein of science, that American taxpayers would never want their tax dollars used for. The clarity that I heard him talk about, that we were asking him about this specific article is that he knew the risks. And that is clear. Not only did he write about it in 2012, but we were talking about it in there.

And I think I can speak for many Americans, when I can say ‘absolutely’ that he belongs in jail for that.”

LIABILITY IMMUNITY : Enforcement of the Vaccine-only Scheme - Con't

In year-2020 Mr. Fauci had already affirmed my COVID-19 “exact opposite” allegation :

“The COVID-19 ‘vaccine’ was not created in response to the SARS-CoV-2 virus, but the exact opposite.”

“How is that possible?!” (Page 11 above). Public affirmations of my “exact opposite” finally began emerging . . . **as a Wuhan Lab blueprint from 2018 ?!** (See Page 31 below).

On 24 January 2024, Mr. Hans Mahncke of *The Epoch Times* issued a report :

“New FOIA Documents Reveal That 2018 Wuhan Lab Blueprint for Making Virus Perfectly Matches Covid”

We now read 2026 headlines that *further* affirm my “exact opposite” allegation :

FOR IMMEDIATE RELEASE
ODNI News Release No. 11-26
June 18, 2026

Fauci Funded Wuhan Lab Research That Sparked COVID
New Evidence Fauci Manipulated Intelligence and Lied to Congress

WASHINGTON D.C. — Before the COVID-19 pandemic, Anthony Fauci, as head of the National Institute of Allergy and Infectious Diseases (NIAID), provided millions in US taxpayer dollars to fund dangerous gain-of-function research on bat coronaviruses at the Wuhan Institute of Virology (WIV)—work which is now widely viewed as the source of the unintentional lab leak that sparked the pandemic.

Today, Director of National Intelligence Tulsi Gabbard is releasing never-before-seen communications and documents exposing how Fauci worked with politicized career leadership in the Intelligence Community (IC) to suppress the truth about his actions, the virus’ lab-leak origins, and his role in directing U.S. funding for this dangerous research that caused immeasurable harm and countless lost lives. These documents expose Fauci’s direct role in influencing and manipulating IC assessments on COVID-19, and how Fauci lied to Congress in 2024, when under oath he denied knowledge of or participation in discussions with intelligence officials about viral research.

For those who have interacted with Mr. Anthony Fauci over several decades, these headlines are anticipated. But his bloviating at Cornell University on 6 October 2020 **was upstaged** a year earlier, in October 2019 . . . by an **“entity of excitement”**. . . Dr. Rick Bright explains.

LIABILITY IMMUNITY : Enforcement of the Vaccine-only Scheme - Con't

On 29 October 2019, implementation of the following market and political coercions had not yet come into existence, but by early-2020 were being openly prepped :

- a. In the near future . . . anyone suggesting a contractually specified and **GoF engineered** origin for the “SARS-CoV-2” virus will be destroyed.
- b. In the near future . . . anyone suggesting **a non-vaccine therapy** for the soon-to-be-announced COVID-19 disease will be destroyed.

On the enclosed USB, sent to President Trump, Letter #44, 5 October 2022; Page 58 of 92 presents context for a and b above. On 29 October 2019, **a Fauci / Pfizer-inspired modRNA promotional** in New York featured HHS Director Dr. Rick Bright.

In essence, Dr. Bright offered his solution to the “**95% refusal**” problem (Page 1 above), and the USPO rejection of the Fauci modRNA patent application (Page 2 above). But, what must be emphasized, his outburst was **NOT** theoretical; it was **NOT** speculative :

“There might be a need, or even an urgent call for an entity of excitement out there, that’s completely disruptive, that’s not beholden to bureaucratic strings and processes...But it is not too crazy to think that an outbreak of a novel avian virus could occur in China somewhere . . .” ⁸

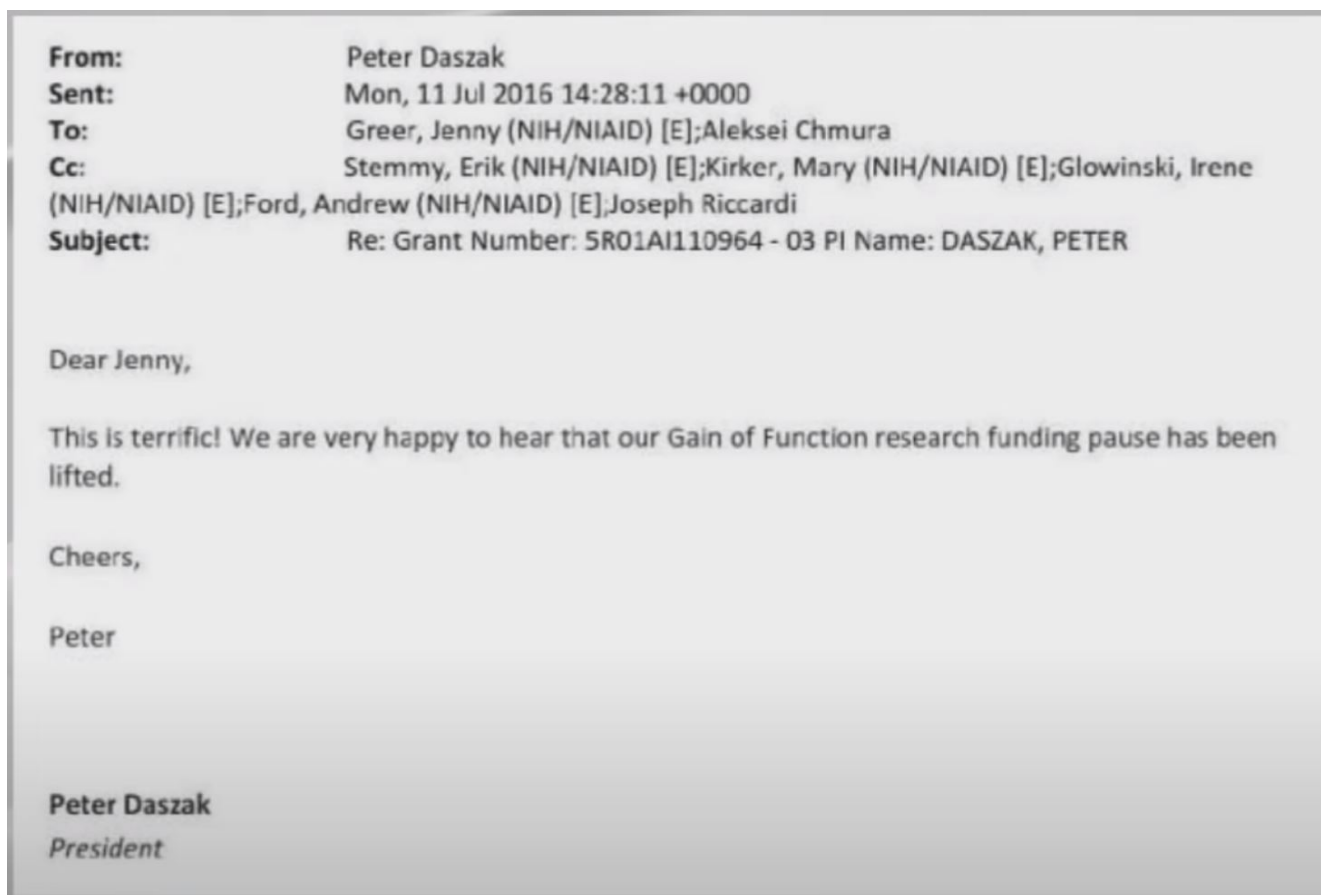

⁸ Here, Dr. Bright seeks to demonstrate his BigPharma fortune telling skills. But on Page 32 below I quote America’s foremost pandemic psychic.

LIABILITY IMMUNITY : Enforcement of the Vaccine-only Scheme - Con't

“Novel virus” ? “In China somewhere” ? At that October 2019 event, Mr. Fauci is seated next to Dr. Bright. **But Dr. Bright’s statement was NOT speculative.** The following reality was not only known to Mr. Fauci, it was orchestrated by him and fellow COVID-19 co-criminals :

The “*entity of excitement*” announced by Dr. Bright already existed. It was previously specified; a GoF engineered product that had already been created under a Fauci/Daszak contract . . . “in China somewhere.” ⁹

In 2021 when asked repeatedly about his relationship with EcoHealth Alliance, and its founding President Dr. Peter Daszak; Mr. Fauci of NIH/NIAID **asserted** (1) he did not know Daszak, (2) had never communicated with him (directly or indirectly), and (3) he never met him :

Numerous such emails, and photos like Page 16 below, refute those Fauci assertions.

⁹ Please see the Mr. Elon Musk letter discussion, Page 16 below.

LIABILITY IMMUNITY : Enforcement of the Vaccine-only Scheme - *Con't*

EcoHealth Alliance President Dr. Peter Daszak and NIAID Director Mr. Anthony Fauci

On the enclosed USB , Folder G, Letter #69 is dated 25 April 2025; my letter to Mr. Elon Musk, then Special Advisor to the President . . . on Page 1 of 16, I demanded :

“President Trump must stop referring to **2019-nCov as ‘the China Virus.’
Later marketed by BigPharma and Big Academia as SARS-CoV-2, **2019-nCov**
was the result of a Fauci/Daszak GoF contract with the Wuhan Lab of Virology.”**

The phrase “SARS-CoV-2” amounted to a relabeling, a new brand name; a hard-sell diversion.

LIABILITY IMMUNITY : Enforcement of the Vaccine-only Scheme - Con't

A year after Dr. Bright announced the *“entity of excitement,”* Mr. Fauci orchestrated *another* modRNA promotional on 6 October 2020 on the campus of our alma mater. The adolescent staging was conducted by Cornell graduate Ms. Kate Snow.¹⁰

“What keeps you up at night?”

“Ya know, what used to keep me up at night, is what I am doing now!

Ya know it’s an interesting question Kate. I get asked years ago. Multiple times. ‘What is you’re worst nightmare?’ ‘What keeps you up at night?’ Well, I always say, that would be a brand new disease, that jumps species, from an animal to a human reservoir, that’s respiratory spread, that has two conflating characteristics. One, it’s spectacularly efficient in its spread from human to human. And two, it has the capability of a high degree of morbidity and mortality, either in the general population or among a subset of group. And sure enough, here we are, in 2020, and we have my perfect nightmare. Namely, a pandemic that’s already killed a million people worldwide, and is still raging throughout the world.

So, what keeps me up at night is acting out the things that kept me up at night, theoretically, is now keeping me up at night practically.”

In the mind of the naïve . . . the above appears to be routine chatter between a media hack and *“America’s Doctor.”* To comprehend **the audacity of Mr. Fauci** you must inculcate with their brutal late-2020 coercions, such as a and b on Page 14 above and Page 18 below :

I can assure you . . . the above October 2020 staging has no connection to insomnia.

¹⁰ Please review Footnote 1, Page 4 above.

LIABILITY IMMUNITY : Enforcement of the Vaccine-only Scheme

Conclusion

Now, in late-2020, the market / political landscape *does* include these coercions :

- a. Anyone suggesting a contractually specified and GoF engineered origin for the “SARS-CoV-2” virus has been destroyed, or will be.
- b. Anyone suggesting a non-vaccine therapy for the COVID-19 disease has been destroyed, or will be.

I watched the Cornell zoom call of 6 October 2020. I observed Fauci in the context of coercions a and b above; and with learned skepticism and suspicion. I allege then, as I am now :

In that 6 October 2020 Cornell staging, Mr. Fauci is not musing over a “worst nightmare”. . . he is celebrating it! Fauci was revealing, with zero trepidation, the broad specifications of **the original 2019-nCoV contract with Wuhan** . . . which resulted in the COVID-19 pandemic-causing GoF engineered pathogen that Trump continues to mumble as “*The China Virus*.” ¹¹

Thank you ex-ODNI Director Tulsi Gabbard! Once again, I also offer thanks to Dr. David Martin and Ms. Kim Martin, co-authors of **The Fauci/COVID-19 Dossier**, the source of Page 2. ¹²

¹² On the enclosed USB, Letter #67 dated 20 March 2025 to Attorney General Mr. Andrew Bailey; Page 31 offers a stark comparison between what motivates medical-doctor vested-interests (**LIABILITY IMMUNITY**) versus what motivates non-vested pure research individuals such as Dr. David Martin (**The whole truth**).

INTERMISSION

Pre-Planned Conspiratorial Underbelly of *Operation Warp Speed* : LIABILITY IMMUNITY

How crucial was LIABILITY IMMUNITY to orchestration of the globally destructive, murderous COVID-19 crime spree? **It was not merely crucial, it was central!** Vested interests such as MDs, BigHospital, Congress, and compromised presidents babble that LIABILITY IMMUNITY was merely a contingency. ¹³

Addendum A will introduce Cornell Law School graduate and Pfizer Chief Legal Officer, Mr. Douglas Lankler; at-right at a November 12 2024 pro-Pfizer Cornell campus gala :

Addendum B will discuss the decision by Pfizer CEO Mr. Albert Bourla and Chief Legal Officer Mr. Doug Lankler, **to sacrifice BILLIONS in profit**, involving a 1.4 BILLION person market : India. A sacrifice groveling in reverence to the COVID-19 underbelly : **LIABILITY IMMUNITY**.

Addendum C discusses the hypocrisy of Congresswoman Halle Stevens, not just the result of the MILLIONS she previously and is currently receiving from “Israel First” foreign agents (such as AIPAC), but specific to her most recent senatorial campaign which celebrates the entry and coddling of illegal refugees . . . a group not mandated to be “vaccinated” because of the well-known fact that **LIABILITY IMMUNITY** cannot shield BigPharma versus refugees.

¹³ By embracing *Operation Warp Speed*, President Trump is inextricably, historically, and irredeemably connectable to the crimes of COVID-19, especially his conspiratorial non-disclosure of LIABILITY IMMUNITY.

REFERENCE : Your Letter to me of 4 March 2025

Thank you sincerely for the Reference. As you know I recorded your *Community Conversation* of 18 February 2025, at the Ford Community & Performing Arts Center, Dearborn, MI (screenshot):

On Page 3 of the Reference you answered only one of the questions I posed (screenshot):

There were a couple questions asked during our conversation that I want to follow up on.

Question: Were Congresspeople required to get vaccinated for COVID-19?

Answer: No, there was no vaccine mandate for Members of Congress.

Years earlier, a close friend to CEO Mr. Albert Bourla, while simultaneously demanding mandates upon “people’s arms,” performed his duty as a Pfizer sales rep :

“I just got done meeting with President Biden, talking about how we need to make sure we’re getting more vaccine out as quickly as possible, and getting into more people’s arms. Behind me is the Pfizer manufacturing facility that’s making the Pfizer vaccine that’s gonna get us through this COVID crisis.”

Senator Gary Peters (D-MI) 19 February 2021

REFERENCE : Your Letter to me of 4 March 2025 - Conclusion

You did not answer my second question . . . although a *Community Conversion* participant became quite agitated upon hearing it. My second question :

“Under the Emergency Use Authorization issued for Pfizer, they cannot be sued for injury or death caused by their so-called vaccine because they are shielded by liability immunity. The PREP Act provides for revocation of liability immunity if evidence proves that Pfizer acted with ‘willful misconduct.’ If you were presented with evidence of willful misconduct during COVID-19, would you support the retroactive revocation of their liability immunity protection?”

You might recall, a lady in the front row, **mere inches from you**, refusing to accept the very *concept* of liability immunity; she immediately shouted (her exact exclamation, recorded) :

“That’s crazy . . . of course you can sue them!”

To your credit, **you** calmly corrected her ignorance on BigPharma, COVID-19, and liability immunity; ignorance that was inflicted upon her : **Senator Gary Peters and fellow BigPharma devotes in both the Senate and Congress were, and remain, active culprits in that cruel lying-by-omission infliction.**

After the formal meeting, that very same lady and many participants thanked me. Enamoring, many young people approached and announced with gala that they did not get “vaccinated;” that they knew of people/relatives that had, and are health-compromised.

You might also recall, I spoke with you and members of your staff (very nice). I handed **you** hard-copies of the post-Pfizer photos of former Medical Assistant Mrs. Jummai Nache; a lady coerced under threat of dismissal by her **University of Minnesota BigHospital employer**.

I forwarded to Senator Ron Johnson the materials received by Mr. Trump, at the White House on 30 September 2025. I am attaching my letter of 15 June 2026 to Senator Johnson, which proposes that Mrs. Nache testify at his Homeland Security hearing on **Hospital Protocols**.

Critical Congressional Investigatory Error that *must* be Avoided

I am concerned that the otherwise good efforts of senators, such as Ron Johnson and Rand Paul, will allow notorious facilitators of the COVID-19 crimes to slither into the shadows; the result of too narrow a focus, or a pro-BigPharma-biased investigatory scope.

A search for justice that is focused solely upon Mr. Fauci will be a tactical and catastrophic long-term disaster, for both American and global society. ¹⁴

¹⁴ Throughout this letter, you will note that I display no interest in what BigPharma vultures, such as Congressman Jamin Raskin, call “decorum.” A criminal such as Mr. Fauci, that defiles Congress with perjury, and my alma mater with despicable behavior, is not deserving of a “decorum” connected to an alleged status as a medical doctor. The enclosed USB contains the file PAULVSHERIDAN-COVID-19_LETTERS-ARCHIVE. Regarding my alma mater, under Folder B, Letter #34, and Letter #38; I present my demand upon Mr. Fauci and Cornell administrators, that **his medical degree be revoked**. My demand is based upon long-standing well-justified rules-of-conduct enacted by our Board of Trustees, **which address “disreputable behavior of alumni.”**

Critical Congressional Investigatory Error that *must* be Avoided

Con't

On page 11 above, Mr. Terheş asks: **“How is that possible ?!”**

His question is **not** focused on a later Fauci diversion : “*vaccine platform technology.*”

Mr. Terheş was focused on **Pfizer “vaccine” trials, that commenced on 14 January 2020 !**

(See Fauci confirmation to *Politico*, Page 10 above.)

To understand the verbiage “*vaccine platform technology,*” we return to the Dr. Rick Bright announcement of an **“entity of excitement”** (Page 14 above). The moderator at that event was Mr. Michael Specter. But do not fall for his pathetic diversion (“Universal Flu Vaccine”). His poorly disguised 29 October 2019 gala was nothing more than a modRNA promotional :

“Why don’t we blow the system up? I mean, obviously, we just can’t turn off the spigot on the system we have, and then say, ‘Heh everyone in the world should get this new vaccine, we haven’t given to anyone yet!’ But there must be some way . . .”

“Blow the system up” ? “This new vaccine, we haven’t given to anyone yet !” ?!

Mr. Specter, with Fauci as his featured speaker, wants “some way” to dodge the issue of modRNA public non-acceptance and USPO lucidity; sampled on Pages 1 and 2 above.

Critical Congressional Investigatory Error that *must* be Avoided

Con't

We return to the Cornell campus . . . the Enclosed USB Letter #22, Page 14 of my 9 June 2021 letter to Fauci, **continues** into a crucial portion of his 6 October 2020 disclosure :

“I could give you a real-time example of how technology in **vaccine platform technology has allowed us to go from identification of a brand new pathogen, namely SARS-Coronavirus-2, to a Phase Three trial purely on the basis of the ability to do things we never could have thought of. Namely, sequencing something overnight, instead of taking a year to do. And then taking **the gene** from the sequence and sticking it into a brand new (vaccine) platform, like an **mRNA platform** or a vectored platform, and getting into a clinical trial within two months, instead of three years.”** ¹⁵

Very few comprehended what Fauci actually confirmed in that quote, at that closed-door session at Cornell. But I can assure you Mr. Albert Bourla and his attorney Mr. Doug Lankler did !

That 6 October 2020 **“vaccine platform technology”** infomercial post-dates the Fauci patent application (Page 2 above), post-dates the **“entity of excitement”** quote (Page 14), post-dates the **“blow the system up”** quote (Page 23); but **predates both** the Cornell **“for decades”** quote (Page 4), and the BigPharma **“gene therapy”** quote (Page 1).

All are convoluted adolescent goo, meant to divert attention from their conspiratorial plan to **“(take) the leap.”** A leap that Pfizer CEO Mr. Albert Bourla was happy to accommodate.

¹⁵ A 6 October 2020 Cornell campus Fauci quote *continuation* from Page 17 above.

Critical Congressional Investigatory Error that *must* be Avoided

Conclusion

The Bright, Specter and Fauci quotes; and the deeds of Pfizer confirmed a two-part crime :

- (1) Deployment of an NIH-funded GoF engineered “novel coronavirus” **(2019-nCoV)**,
- (2) Alleviation of modRNA non-acceptance by orchestration of a “public health emergency.”

Dr. Bright, Mr. Specter, Mr. Fauci, Mr. Bourla and Mr. Trump succeeded as follows :

- (i) **“Blow(ing) the system up.”**
- (ii) The “vaccine” for which they seek marketability will **only** be deployed by EUA. This ensures broad covering behind **LIABILITY IMMUNITY**.
- (iii) modRNA does not meet the “standard art definition” for the common term vaccine. Public ignorance of the **“new vaccine we haven’t given to anyone yet”** must be maintained. Under a vaccine-only scheme; vaccinators, MDs, BigHospital, BigAcademia and box stores must be shielded by **LIABILITY IMMUNITY**.

A Congressional search for justice that excludes BigPharma, is catastrophic for both American and global society.

***Preamble* : FORMAL REQUEST AS YOUR CONSTITUENT**

Consistent with the second question I asked you on 18 February 2025, the PREP Act provides for revocation of **LIABILITY IMMUNITY** (See Pages 20 and 21 above).

Willful misconduct?! That evidentiary level was surpassed long ago, versus my allegation :

“The COVID-19 ‘vaccine’ was *not* created in response to the SARS-CoV-2 virus, but the exact opposite.”

In an ethical society, evidence already in plain view would suffice to prove ‘willful misconduct.’ A key institution for exacting justice, dreaded by BigPharma : **The Plaintiffs’ Bar**. In 1986, in service to BigPharma, the plaintiffs’ bar was castrated by Mr. Anthony Fauci . . . and then betrayed by *“the duplicity and complicity of the Senate and Congress.”* **Is the latter an ongoing travesty that put and continues to place the trusting public at grave risk?**

At recent Senate hearings which reviewed accumulating evidence of **Pfizer pre-knowledge** of COVID-19 modRNA injury and death :

Senator Gary Peters (D-MI) was a notorious and repeat *no-show*. ¹⁶

¹⁶ In stark contrast to his February 2021 pro-Pfizer rant, Page 20 above. Utterly despicable duplicitous behavior.

***Preamble* : FORMAL REQUEST AS YOUR CONSTITUENT**

On the *very same day* we met, 18 February 2025, Pfizer CEO Albert Bourla fumbled & bumbled a major interview on **LIABILITY IMMUNITY** (Page 6 above). ¹⁷

At your 18 February 2025 *Community Conversation*, I asked two questions. The answer to my first question confirms **a hypocrisy so vile** that only deeply corrupted persons, such as the US Senate and US Congress could be party to it. You did not answer my first question in-front of the group, but to-your-credit did-so in your letter of 25 March 2025 (screenshot) :

There were a couple questions asked during our conversation that I want to follow up on.

Question: Were Congresspeople required to get vaccinated for COVID-19?

Answer: No, there was no vaccine mandate for Members of Congress.

When one views your (truthful) response in the context of BigPharma tramps and double-talking senatorial hypocrites, such as Gary Peters (D-MI), the descriptor 'vile' is beyond generous (See his gushing Pfizer sales pitch, Page 20 above). That is :

The very same group of vile hypocrites, that oversaw and *encouraged* **the mandating of the COVID-19 modRNA poison**; an experimental poison so dangerous that its facilitators must be shielded by **LIABILITY IMMUNITY**; those “public servants” that quietly enacted **LIABILITY IMMUNITY** in behalf of BigPharma, the very same so-called “public servants” that witnessed and possessed hard evidence, not merely of willful misconduct but **crimes against humanity**; those vile hypocrites were now **secretly excluding themselves** from those very same types of “vaccine” mandates !?

¹⁷ The preparatory CNBC contact? And the source of the LIABILITY IMMUNITY question put to Mr. Bourla? Wherein he mumbled about automotive safety? See **The COVID Crime Syndicate - LIABILITY IMMUNITY**; https://youtu.be/CikfelQwEKg?si=IOd-YUGEF_Hz3yYi Note that my ending analogy involves automotive safety.

Preamble : FORMAL REQUEST AS YOUR CONSTITUENT

Introduced on Page 7 above, my formal request upon Mr. Trump

“Please issue an Executive Order that revokes the LIABILITY IMMUNITY that was granted for the modRNA technology (COVID-19 “vaccine”) ; retroactive to the FDA EUA date of 11 December 2020.”

Justification for my Executive Order Request? My upcoming Formal Request upon you? Beyond willful misconduct, evidence of criminal fraud includes what Pfizer secretly coerced in “vaccine” contracts that were not protected by **LIABILITY IMMUNITY**.

On Pages 22-25 above, I posed my ongoing concern :

A (Senatorial / Congressional) search for justice that is focused solely upon Mr. Fauci, at the exclusion of BigPharma and other COVID-19 criminals (such as BigAcademia), will be catastrophic; a long-term disaster for both American and global society.

COVID-19 criminals range from Cornell administrators, to Pfizer CEOs and their subordinates at the FDA. All were collectively conspiring for a **modRNA EUA**. The Fauci / Bourla conspiracy involved election meddling; waiting until after Mr. Biden was elected prior to release of alleged results of the *Operation Warp Speed* trials. Then both lied to the entire world while promoting Pfizer’s **“no serious safety concerns”** press release of 20 November 2020 :

“In addition to today’s submission to the FDA, the companies have already initiated rolling submissions across the globe including in Australia, Canada, Europe, Japan and the U.K. . . . BNT162b2 demonstrated a vaccine efficacy rate of 95%, with no serious safety concerns observed to date.”

95%? No safety concerns? Is that what Pfizer declared in nations that do not offer LIABILITY IMMUNITY ?

In my letter of 28 May 2024 to Pfizer Chief Legal Officer, Mr. Doug Lankler, I expose **secret** contracts, enforced upon nations that do not offer LIABILITY IMMUNITY. In those “confidential” contracts Pfizer buries legalize in the section labeled :

Purchaser Acknowledgement

Acknowledgement of what?! Pfizer blackmail included *legalize* to shield itself from personal injury lawsuits in **jurisdictions that refused the ruse of LIABILITY IMMUNITY.** ¹⁸

¹⁸ Enclosed USB, Folder E and Letter #62 dated 28 May 2024, and attached under Tab 3. No response.

Preamble : FORMAL REQUEST AS YOUR CONSTITUENT

In the USA, where **LIABILITY IMMUNITY** is the sole privilege of BigPharma, Pfizer declared :

***“ . . . a vaccine efficacy rate of 95%,
with no serious safety concerns observed to date.”***

Mere months after the EUA of 11 December 2020, while “vaccine mandates” are being inflicted against Dearborn constituents, **Pfizer secretly affirmed the reverse :**

Purchaser Acknowledgement.

Purchaser acknowledges that the Vaccine and materials related to the Vaccine, and their components and constituent materials are being rapidly developed due to the emergency circumstances of the COVID-19 pandemic and will continue to be studied after provision of the Vaccine to Purchaser under this Agreement. Purchaser further acknowledges that the long-term effects and efficacy of the Vaccine are not currently known and that there may be adverse effects of the Vaccine that are not currently known. Further, to the extent applicable, Purchaser acknowledges that the Product shall not be serialized.

“Purchaser further acknowledges the long-term effects and efficacy of the Vaccine are not currently known and that there may be adverse effects of the Vaccine that are not currently known.”

Not currently known?! The above is sampled from the March 2021 contract, that was **secretly** issued against the Republic of South Africa. In contrast to **the duped Dearborn taxpayer, who carried ALL the risks**; in South Africa, Pfizer unloaded all health risk and legal responsibilities onto government officials . . . the so-called purchasers.

In South Africa, where **LIABILITY IMMUNITY is not offered**, Pfizer declares:

“the effects and efficacy of the Vaccine are not currently known” ?!

But in the USA, postponed until after the 2020 election, Pfizer declared in its EUA rants :

“a vaccine efficacy rate of 95%” ?! *“No serious safety concerns”* ?!

Again, my Executive Order request upon Mr. Trump (Page 7 above) :

“Please issue an Executive Order that revokes the **LIABILITY IMMUNITY that was granted for the modRNA technology (COVID-19 “vaccine”) ; retroactive to the FDA EUA date of 11 December 2020.”**

***Preamble* : FORMAL REQUEST AS YOUR CONSTITUENT**

Page 1 above affirms that **informed consent** was subverted during the COVID-19 crime spree :

*"To tackle issues beyond COVID-19, we've seen vaccines as the perfect example. We are taking **the leap** in selling gene therapy. Ultimately the mRNA vaccines are an example for that. I always like to say if we had taken a survey two years ago, in the public, 'Would you be willing to take gene or cell therapy; and get it injected into your body?' We would have probably had **a ninety-five per cent refusal rate!**"*

The above is an admission by BigPharma; **not merely willful misconduct**, but an *in-your-face* affirmation of wanton deception; open conspiracy and criminal fraud **on a global scale**.

Shortly after the quote above, I proffered retroactive revocation of Pfizer LIABILITY IMMUNITY :

Preamble : FORMAL REQUEST AS YOUR CONSTITUENT

Inclusion of the USPO rejection of the Fauci modRNA patent application (Page 2 above) is not meant to impress; it is meant to instruct. Page 2 will help you understand how deeply sinister; if not demonic was the entire COVID-19 crime spree :

A. With traditional vaccine technology (methods that adhered to the **“standard art definition”**) a **prior pre-planned** design specification, and sequence manipulation *at the genetic level*, of pandemic-causing pathogens, **was not feasible**.

B. COVID-19 involved (1) creation of a genetically engineered GoF pathogen that targeted humans which (2) mirrored **an existing capability** to produce a matching gene-sequenced “gene therapy,” their modRNA vaccine. **The COVID-19 GoF pathogen (the “2018 Wuhan Lab Blueprint” precisely specified under the Fauci-funded EcoHealth Alliance contract), was premised upon “a vaccine that scientists have been working on for decades”**

(See Page 1, then Page 13, and then back to Page 4 above).

C. For clarification, in my career as a long-time Engineering Programs Manager (for a Michigan auto manufacturer), I would never release into the stream-of-commerce an engineered product that could not be repaired. If my product required specialized methods or special tools to effect repair, I designed those in-lockstep, and released those as part of my engineering program. This is well-known engineering practice; there is nothing sinister about it . . . I never released a product that could not be fixed. But, in regard to COVID-19, please review Page 12 above :

“The COVID-19 ‘vaccine’ was not created in response to the SARS-CoV-2 virus, but the exact opposite.”

The **“2018 Wuhan Lab Blueprint”** (2019nCoV), re-labeled and re-branded as SARS-CoV-2, was a pre-planned engineered product, with genetic design that was confined to **“a vaccine that scientists have been working on for decades”** (Page 4 above).

CEO Mr. Albert Bourla celebrating his pre-EUA results, from allegedly double-blind trials, **which began 14 January 2020 ?**

“How is that Possible?!”

(See Page 11 above).

INTERMISSION

In my 10 April 2020 letter to President Trump, wherein I politely advised him to “**Fire Fauci**,” I quoted America’s leading **pandemic psychic** :

*“There will be a challenge (for) the coming Administration in the arena of infectious diseases, both chronic infectious diseases in the sense of already ongoing disease, and we have certainly a large burden of that, but also there will be **a surprise outbreak.**” (January 10, 2017)*

“America’s Doctor” has NEVER treated a COVID-19 patient, whose illness and death he alleges was caused by a spike protein pathogen that **was engineered by Chinese bats**.

“America’s Doctor” has NEVER treated a COVID-19 modRNA injury patient, whose illness and death he alleges **was caused by “coincidence.”**

FORMAL REQUEST AS YOUR CONSTITUENT

Before making my Formal Request, a summary of two **basic** COVID-19 facts :

A. At no time leading up to the Emergency Use Authorization (EUA) on 11 December 2020 did Pfizer openly declare that their remedy for COVID-19 did not meet the minimum **“standard art definition,”** but was in-truth **“gene therapy;”** a modRNA platform that had **“never been used on humans before.”** Had these facts not been concealed (which obviated informed consent), their so-called vaccine would have suffered a **“ninety-five percent refusal rate.”**

B. At no time leading up to the EUA did Pfizer (or Mr. Trump) openly inform that their alleged sole remedy for COVID-19, a modRNA platform, was **so dangerous** that if requested to deploy without the shielding of **LIABILITY IMMUNITY**, Pfizer would have, and later did refuse to do so. (See *Addendum* Pages 34 – 36 below)

Introduced on Pages 20 – 21, posed on 18 February 2025 at your *Community Conversation*; my second question remains unanswered :

“Under the Emergency Use Authorization issued for Pfizer, they cannot be sued for injury or death caused by their so-called vaccine because they are shielded by liability immunity. The PREP Act provides for revocation of liability immunity if evidence proves that Pfizer acted with ‘willful misconduct.’ If you were presented with evidence of willful misconduct during COVID-19, would you support the retroactive revocation of their liability immunity protection?”

FORMAL REQUEST : Please answer my second question.

Sincerely, respectfully, and cordially,

Paul V. Sheridan

Pfizer Walks Away from India, and a 1.4 BILLION Person Market ?!

What explains why a greed-prioritized globalist corporation turned down **BILLIONS in profit**; turning away from sale of its modRNA “vaccine” to the most populous nation in history!?

What prompted the decision by Pfizer executives, CEO Mr. Albert Bourla and Chief Legal Officer Mr. Doug Lankler, to walk-away from the great nation of India? Answer :

LIABILITY IMMUNITY for COVID-19 “vaccine” in India : **REJECTED**

Why India did not allow Pfizer's Covid-19 vaccine

By Anu Lall - January 23, 2023

Pfizer never came to India. Pfizer applied for clearance for its vaccine in 2020. Indian regulators demanded a local safety and immunogenicity study. Such bridging studies are the common world over.

All other foreign vaccine makers had conducted similar studies in India. But Pfizer refused to do a local trial. In addition, Pfizer wanted legal immunity and protection against injury, which India refused. The USA provides legal immunity to vaccine manufacturers. India does not have any such law, and we did not change our laws for Pfizer.

Duplicity and Hypocrisy of Congresswoman Halle Stevens : LIABILITY IMMUNITY Cannot be Enforced Upon Refugees

Pfizer has not and will not offer their taxpayer-funded, and highly profitable COVID-19 “vaccine” to Immigration and Customs Enforcement (ICE). Pfizer has no intention of accomdating illegal immigrants, refugees, or those that are simply non-citizens. **Why?** Doing so, with their alleged “95% safe & effective” concoction would lead to **“lawsuits, documents show.”**

Duplicity and Hypocrisy of Congresswoman Halle Stevens : LIABILITY IMMUNITY Cannot be Enforced Upon Refugees

The hypocrisy of Congresswoman Halle Stevens is also borne as the result of MILLIONS she previously solicited and is currently receiving from “Israel First” foreign agents (AIPAC).¹⁹

Mr. Paul Sheridan
22357 Columbia St.
Dearborn, Michigan 48124

Dear Paul,

I wanted to personally thank you for attending our Community Conversation on Tuesday, February 18th at the Ford Community & Performing Arts Center in Dearborn.

Your concerns were heard very clearly, and I very much appreciated being able to have a dialogue with you about the most important issues facing our community and country. It truly helps me be more effective in the work I am doing on your behalf in Congress.

As your representative, I am determined to lift my voice and advocate for a just future. Continued constituent outreach ensures that I remain grounded in our community's concerns and guides our legislative work for the families within our district and beyond.

Many residents have expressed deep concerns regarding the current lawless administration and its destructive Project 2025 agenda. The first few weeks of this administration have been a trying time for all of us. It was great to see so much passion in the room for fighting back and resisting.

We can counter Project 2025 by fighting them in Congress, the courts, and in the streets. Residents can get involved with organizations like Democracy Forward, MoveOn, ACLU, and Indivisible that are helping lead the fight. It is critical that we work with plaintiffs and outside organizations to file lawsuits through the courts to fight back against the unconstitutional and illegal actions of the executive branch.

Additionally, the federal funding freezes and cuts have raised concerns for residents' rights and resources. Many of you expressed concerns about attacks on programs like Social Security, Medicaid, Medicare, WIC, and SNAP. I voted against the GOP's budget resolution that puts these critical lifelines on the chopping block and will continue to rally my colleagues in Congress to resist these cuts. I lead a letter through our Mamas' Caucus to protect Head Start from funding disruptions, and have joined countless others decrying these damaging cuts. If your organization is having trouble accessing your federal funding, please contact my office so we can try to help get it restored.

Additional Information

My first of two questions, my second involved LIABILITY IMMUNITY

There were a couple questions asked during our conversation that I want to follow up on.

Question: Were Congresspeople required to get vaccinated for COVID-19?

Answer: No, there was no vaccine mandate for Members of Congress.

Question: What happens if the Trump Administration decides to ignore court orders?

Answer: It would be a unique situation if the Administration decides to violate and ignore court orders, plunging us further into this constitutional crisis. I call upon the courts to enforce their rulings, including by holding members of the Administration who violate their orders in criminal contempt and taking them into custody, as they would any other court order violator. No one is above the law, and the Executive Branch doesn't get to destroy centuries of checks and balances when it suits them.

I am including a chart documenting the status of several ongoing legal challenges to Trump Administration's lawless orders and actions:

Admin Action	Legal Outcome
EO ending Birthright Citizenship	Multiple District Courts Issue Preliminary Injunction
Trump's "Buyout" Offer for Federal Employees	District Court Lifted Preliminary Injunction on Feb. 12th
OMB Federal Funding Freeze	Multiple District Courts Issue Preliminary Injunction (including the U.S. First Circuit Court denying an appeal by the Trump Administration to stop the district court's ruling)
DOGE Access to Taxpayer Data	Multiple District Courts Issue Preliminary Injunction
Purge of FBI Agents (<i>class action</i>)	District Court Issues Temporary Restraining Order (with consideration of the Preliminary Injunction expected in late March)
Dismantling of USAID	District Court Issues a Narrow Temporary Restraining Order
DOGE Access to Treasury Payment Systems	Multiple District Courts Issue Temporary Restraining Order
Dismantling of CFPB	Trump Administration Agrees to Temporary Block Until a Hearing regarding the Preliminary Injunction is Held on March 3rd
Termination of U.S. Special Counsel	U.S. Supreme Court Temporarily Blocks Removal of U.S. Special Counsel
Termination of Probationary Employees	District Court Judge Issues a Temporary Restraining Order

Dear Senator Johnson:

Emigrating from violence, which continues to target Believers in Nigeria, Mrs. Jummai Nache and her family moved to Minnesota USA. From July 2019 until September 2021, Jummai was a Medical Assistant at the University of Minnesota. This employment period included the “COVID-19 pandemic.”

During this time period, the officials shown below presided over the government/health affairs (allegedly in-behalf of the citizens and **legal** immigrants) of Minnesota :

In several letters, as well as follow-up telephone calls, Governor Tim Walz and Attorney General Keith Ellison refuse to respond to my inquiries regarding the health & well-being of their constituent : Mrs. Jummai Nache.

Their refusals include avoidance of **"the leap"** admission; revealed in the quote below of October 2021, by BigPharma executive Dr. Stefan Oelrich (Bayer Pharmaceuticals) :

"To tackle issues beyond COVID-19, we've seen vaccines as the perfect example. We are taking **the leap** in selling gene therapy. Ultimately the mRNA vaccines are an example for that. I always like to say if we had taken a survey two years ago, in the public, *'Would you be willing to take gene or cell therapy; and get it injected into your body?'* We would have probably had **a ninety-five per cent refusal rate!** "

CONCLUSION

A ninety-five per cent refusal rate?! I attended the Nache family Naturalization Oath Ceremony of 15 August 2025 (in Minneapolis, MN) :

My attendance allowed for a face-to-face confirmation of the following :

If the University of Minnesota hospital administrators had disclosed their knowledge of the fact that the COVID-19 needle was *NOT* a vaccine; that in truth it was an experimental gene therapy technology . . . **Mrs. Nache confirmed that under true informed consent she would have forfeited her Medical Assistant position; refusing to be victimized by UMinn hospital protocols which mandated the Pfizer modRNA technology and its COVID-19 ruse of LIABILITY IMMUNITY.**

In accommodation to BigPharma, the UMinn hospital protocols mandated the modRNA injections. The protocols were enforced by employment dismissal coercion. This occurred at UMinn prior to any true/credible “vaccine” effectiveness data . . . in January 2021 !!

FORMAL REQUEST

Reliable sources indicate that you intend to hold a hearing of the 'Homeland Security – Government Affairs : Permanent Subcommittee on Investigations' which will focus on COVID-19 hospital protocols.

Attached is a timetable that reviews the University of Minnesota hospital protocols, and a sample photo history of the adverse events that resulted: Those inflicted upon their former Medical Assistant, Mrs. Jummai Nache. Note that Page 4 of 13 of the photo history shows the CDC-promoted lie that the COVID-19 modRNA injection was a vaccine. It also shows that the first of two Pfizer modRNA hospital protocol mandated injections occurred **all the way back on 13 January 2021**.

It is requested that you invite Mrs. Jummai Nache to testify at your upcoming hearing on hospital protocols. Please use the following contact information:

University of Minnesota COVID-19 Hospital Protocol versus Mrs. Jummai Nache

With confirmatory entries in UMinn medical report, the following timeline describes adverse events inflicted upon a former UMinn Medical Assistant, Mrs. Jummai Nache. The modRNA induced venous / arterial thromboembolism **was undisclosed FDA/CDC foreknowledge** covering the Pfizer COVID-19 “vaccine.”

Memo 1: Mrs. Jummai Nache employed at University of Minnesota (UMinn) Physicians group; perfectly healthy, no COVID symptoms. UMinn refuses to administer COVID “test” prior to injection. No information provided to her by UMinn regarding their knowledge of modRNA “adverse events.” No information provided on liability immunity. Basic Nuremberg levels of informed consent not offered by UMinn.	
First Pfizer modRNA injection; no prior or existing COVID symptoms.	January 13 2021
Reaction to first Pfizer needle immediate; fever, headache; prior to first needle Jummai had <i>no</i> health issues.	January 16, 2021
Second Pfizer modRNA injection; prior to second needle Jummai still had no COVID respiratory symptoms.	February 1 2021
No COVID respiratory symptoms, however chest pain; Jummai cannot work.	February 2 2021
Still no COVID respiratory symptoms, but chest pain and heart palpitations now severe, Jummai is rushed to Urgent Care. Finally UMinn administers COVID “test.”	February 6 2021
UMinn claims that post-modRNA injection COVID test of February 6 is “positive.”	February 7 2021
Memo 2: Martha Pollack of Cornell, under direct advice of Pfizer CEO Peter Bourla, begins regurgitating the Bourla ruse, at the Cornell COVID-19 website: the Pfizer “vaccine” is “95% safe and effective.”	
Jummai heart function deteriorates; admitted to Fairview Emergency Room.	February 11 2021
Jummai heart and <u>now</u> respiratory function near total failure; rushed to intensive care at UMinn Medical Hospital.	February 13 2021
Near death , UMinn declares only way to save Jummai is forced lung ventilation.	February 14 2021
Memo 3: IMPORTANT - Now beyond ‘14-day window’ since Jummai received second Pfizer modRNA injection. 80% of deaths post second modRNA needle occur prior to 14 days. 90% of injuries post second modRNA needle occur prior to 14 days. Ms. Rochelle Walensky of CDC secretly dictates that all injury/death occurring prior to 14-day deadline to be designated as “unvaccinated.” Jummai injuries not counted in CDC VAERS; post 14 day amputations recorded by UMinn as “COVID-19.”	
Unannounced, UMinn retests for COVID, continues to blame SARS-CoV-2.	February 16 2021
Prior to Pfizer needles, Jummai never hospitalized. “A model of health,” life-long non-smoker / non-drinker. After 14-day-window UMinn reports all new diagnosis : 1. Arterial blood clot 2. Respiratory distress 3. Cardiomyopathy 4. Anemia 5. Ischemia 6. Multiple Inflammatory Syndrome 7. Severe damage to legs, both hands, all fingers; all are blood clot related.	March 2021
With no in-person exam of Jummai , Rochelle Walensky/CDC send letter declaring 1 – 7 above (March 2021 diagnosis) as “un-related” to Pfizer modRNA (?!).	March 31 2021
Jummai health destroyed, living in continuous pain/agony.	April May June 2021
Both legs of Jummai amputated due to Item 7, severe thromboembolism damage.	June 21 2021
Left hand, fingers of right hand amputated, Item 7 severe thromboembolism damage	July 20 2021
Memo 4: Final condition of Mrs. Jummai Nache is summarized on attached photo-history.

Mrs. Jummai Nache and Pastor Philip Nache; learning how to walk on prosthetic limbs. Amputation of her limbs **caused by illegally mandated modRNA injections under hospital protocols** administered by her former employer, the University of Minnesota (UMinn).

A non-smoker, a non-drinker, a "model of health" prior to Pfizer needle; amputations in pictorial review caused by modRNA-induced venous and arterial thromboembolism. Such was a known "mRNA" danger, discussed at the FDA meeting of 22 October 2020. That meeting occurred **prior** to their Emergency Use Authorization (EUA) of 11 December 2020. **Unlike Mrs. Nache, UMinn hospital administrators were fully aware that the EUA allowed their medical doctors, clinicians, nurses, etc. to inject the experimental Pfizer modRNA poison under the secretive ruse of LIABILITY IMMUNITY.**

The Honorable Robert F. Kennedy, Jr.
Secretary
Department of Health and Human Services

Dear Secretary Kennedy:

On April 29, 2026 the Senate Permanent Subcommittee on Investigations (“PSI” or “the Subcommittee”) held a hearing and released a report titled, “Unmasked: How Biden Health Officials Purposely Turned a Blind Eye Toward COVID-19 Vaccine Safety Signals.”¹ Because of your commitment to “radical transparency” and compliance with my January 2025 subpoena, the Subcommittee was able to uncover a major scandal within the Department of Health and Human Services (“HHS”) during the Biden administration.² Specifically, federal health officials knew their COVID-19 vaccine safety analytic system was insufficient and they refused to implement a superior, updated system that could better detect safety signals for vaccine adverse events.³

However, much work remains to fully uncover the extent of federal health officials’ willful blindness toward the harms of the COVID-19 vaccines. In particular, the requests connected to my December 15, 2025 letter regarding the Food and Drug Administration’s (“FDA”) findings of pediatric deaths connected to COVID-19 vaccines still remain outstanding.⁴ I write, therefore, to underscore the need for your leadership in ensuring key records and individuals be made available to the Subcommittee to provide the “radical transparency” you have rightly promoted.

As my recent report detailed, on March 1, 2021, the then-Director of the FDA’s Center for Biologics Evaluation and Research (“CBER”), Dr. Peter Marks, was informed that the algorithm FDA was using to analyze VAERS data would mask or hide safety signals associated

with the COVID injections.⁵ On March 26, 2021, senior FDA officials were provided a VAERS analysis based on a newer, “state of the art” algorithm that showed “49 cases of extreme masking” and approximately 25 statistically significant safety signals for serious adverse events that were previously undetected, including sudden cardiac death, pulmonary infarction, and Bell’s Palsy.⁶

Instead of alerting the public, FDA decided to continue to use the old algorithm that they knew hid safety signals. That algorithm allowed them to insist they weren’t seeing safety signals for serious adverse events, and that the adverse events they did observe were generally described as rare and mild.⁷ They could be confident they would never find what they weren’t looking for. As a result, the American people were not fully informed as they consented or were mandated to get the experimental injection.

Although federal officials deliberately used a system incapable of truly identifying safety signals, the raw number of reports to VAERS should have been cause enough to raise the alarm. As of March 27, 2026, VAERS is reporting worldwide 1,675,590 adverse events and 39,077 deaths, with 9,329 (23.9%) of those deaths occurring within 2 days of vaccination.⁸ As you know, the HHS-commissioned Harvard University Pilgrim Health Care study found that less than 1% of vaccine adverse events were reported to VAERS.⁹ As a result of underreporting in VAERS, it is unknown how many people were actually injured or died.

In addition to the data masking and underreporting in VAERS that diminished the detection of COVID-19 vaccine adverse events, federal health officials also muzzled individuals who were suffering from vaccine injuries. In March 2021, just as FDA officials were informed of masked safety signals, doctors within the National Institutes of Health reportedly began diagnosing and treating patients injured by the COVID injections. Dr. Avindra Nath led the team that eventually treated 23 patients.¹⁰ Federal health officials, however, allegedly did not want their acknowledgement of the vaccine injured to be widely known. The vaccine injured were reportedly asked to stay silent regarding their treatment, with the promise that once enough information was gathered, their injuries would be acknowledged and a study would be published

so others could be treated.¹¹ The promised study does not appear to have been published. The fact that a study was never published and their injuries were never acknowledged serves to underscore the despicable behavior of those responsible for safety surveillance and warning the public.

On December 15, 2025, I wrote to HHS requesting records connected to a November 28, 2025 memorandum written by the then-CBER director, Dr. Vinay Prasad, revealing that “at least 10 children have died after and because of receiving COVID-19 vaccination.”¹² To date I have received only a partial and totally inadequate response from FDA Commissioner Marty Makary. On May 4, 2026, HHS provided the Subcommittee a December 5, 2025 memorandum detailing 96 pediatric deaths following COVID-19 vaccination, some of which were labeled as “possibly” or “probably” related to the vaccine.¹³ The analysis described in this memorandum and conducted under your leadership provides even more evidence of the Biden administration’s coverup of the safety risks associated with the COVID-19 injections.¹⁴ I suspect there are many additional records that are responsive to my December 15, 2025 request about pediatric deaths following COVID-19 vaccination and I respectfully ask for HHS to immediately provide my office with those documents.

I appreciate your commitment to make current HHS employees that were involved in or had knowledge of the department’s scandalous handling of COVID-19 vaccine safety oversight available for interviews with the Subcommittee. I am concerned, however, that federal documents may have been destroyed or are being withheld as part of the coverup. On April 9, 2025, based on information provided by your agency, I referred allegations that Dr. Tom Shimabukuro deleted or destroyed federal records to the Department of Justice and HHS Inspector General.¹⁵ To date, however, I have been unable to ascertain whether or not the HHS Inspector General is conducting an investigation of the matter. I ask for your commitment to inform the Subcommittee whether or not an investigation is underway. In light of the recent indictment of Dr. David Morens on conspiracy and destruction of federal documents charges, it is important for the public to know whether additional investigations are occurring based on similarly strong evidence.

While I appreciate your efforts to ensure transparency, including producing the December 5, 2025 memorandum, there is far more to discover regarding federal health officials’ response to the coronavirus pandemic. Five years have already passed since Dr. Marks decided to ignore VAERS safety signals, and we are only now just learning about that appalling decision and the

ABSTRACT

A growing number of peer-reviewed publications have reported diverse cancer types appearing in temporal association with COVID-19 vaccination or infection. To characterize the nature and scope of these reports, a systematic literature search from January 2020 to October 2025 was conducted based on specified eligibility criteria. A total of 69 publications met inclusion criteria: 66 article-level reports describing 333 patients across 27 countries, 2 retrospective population-level investigations (Italy: ~300,000 cohort, and Korea: ~8.4 million cohort) quantified cancer incidence and mortality trends among vaccinated populations, and one longitudinal analysis of ~1.3 million US military service members spanning the pre-pandemic through post-pandemic periods. Most of the studies documented hematologic malignancies (non-Hodgkin's lymphomas, cutaneous lymphomas, leukemias), solid tumors (breast, lung, melanoma, sarcoma, pancreatic cancer, and glioblastoma), and virus-associated cancers (Kaposi and Merkel cell carcinoma). Across reports, several recurrent themes emerged: (1) unusually rapid progression, recurrence, or reactivation of preexisting indolent or controlled disease, (2) atypical or localized histopathologic findings, including involvement of vaccine injection sites or regional lymph nodes, and (3) proposed immunologic links between acute infection or vaccination and tumor dormancy, immune escape, or microenvironmental shifts. The predominance of case-level observations and early population-level data demonstrates an early phase of potential safety-signal detection. These findings underscore the need for rigorous epidemiologic, longitudinal, clinical, histopathological, forensic, and mechanistic studies to assess whether and under what conditions COVID-19 vaccination or infection may be linked with cancer.

INTRODUCTION

The COVID-19 pandemic and the widespread deployment of novel mRNA- and viral-vector based

vaccines have reshaped the landscape of human immunology [1–4]. Never has such a large proportion of the global population been exposed simultaneously to nucleic acid-based immunogens, lipid nanoparticle (LNP)
